Description: These surveys are designed to collect data from service providers and employers. For each provider, we will collect Point of Contact (POC) information and information about the types of clients the provider serves. We also request information about the size of the provider organization, whether a fee is charged for placement services, and employer references. For each employer, we will collect information about the number of employees, geographic location, industry, specific jobs offered, and Point of Contact (POC) information. The Employer Survey and Provider Survey will collect quantitative data on participants' levels of satisfaction with individual service elements and their satisfaction with the service as a whole. The surveys will also solicit free-text comments from participants regarding the service. We will present survey data in the aggregate for all Employers and Providers. We will combine survey data with system-generated data reports containing demographic data for the sample groups as well as performance data for the Call Center.
