Federal Highway Administration

Environmental Impact Statement: Marion County, West Virginia

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Revised notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that it is revising the original notice of intent published in the **Federal Register** on August 3, 1994. The original notice stated that an environmental impact statement (EIS) would be prepared for a proposed new expressway in Fairmont, West Virginia (Riverside Expressway). The proposed project was to include an interchange with Interstate 79, crossing either the Monongahela River or the Tygart Valley and West fork Rivers, utilizing an existing railroad right-of-way, ending at U.S. 19 south of Rivesville, West Virginia. After significant public involvement and analysis of potential project impacts and costs, the scope of the project has been redefined and the project termini altered. The redefined project, referred to locally as the Fairmont Gateway Connector, is being developed with environmental assessment in lieu of an EIS.

FOR FURTHER INFORMATION CONTACT:

Henry E. Compton, Division of Environmental Coordinator, Federal Highway Administration, West Virginia Division, Geary Plaza, Suite 200, 700 Washington Street East, Charleston, West Virginia, 25301, Telephone (304) 347-5268.

SUPPLEMENTARY INFORMATION: In lieu of preparation of an environmental impact statement for the Riverside Expressway Project, the FHWA, in cooperation with the West Virginia Division of Highways (WVDOT), will prepare an environmental assessment for the proposed Fairmont Gateway Connector Project. The project is proposed to relieve traffic congestion, improve access to downtown Fairmont, increase safety, stimulate economic development and provide direct access to Interstate 79. The western terminus of the study area is the west end of the Jefferson Street Bridge. The eastern terminus is Interstate 79. Alternates under
