Colorado State Plan for Certification of Applicators of Restricted Use Pesticides; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of intent to approve, on a contingent basis.

SUMMARY: The State of Colorado has submitted to EPA several statutory, regulatory, and programmatic amendments to its State Plan for

Certification and Training of Applicators of Restricted Use Pesticides (RUPs). The amended State Plan provides details for the certification of both private and commercial pesticide applicators and subsequent enforcement of pesticide laws and regulations pursuant to the Colorado Pesticide Applicators' Act. EPA is currently responsible for certifying private applicators of RUPs in Colorado, while the Colorado Department of Agriculture is responsible for certifying commercial applicators of RUPs. EPA approval of Colorado's amended State Plan will allow Colorado to assume regulatory authority for certification of both private and commercial applicators of RUPs. In addition, the amended State Plan adds three new commercial pesticide applicator subcategories: Metam-sodium for sewer root control; wood preservation and wood products treatment; and interior plant pest control. Notice is hereby given of the intention of the Regional Administrator, Region VIII, to approve the revised Plan for the Certification of Applicators of Restricted Use Pesticides on a contingency basis, as provided at 40 CFR 171.7(b)(1)(ii). Approval of the amended State Plan is contingent upon the promulgation of revised State Rules and Regulations pertaining to the Administration and Enforcement of the Colorado Pesticide Applicators' Act on January 1, 2007. EPA is soliciting comments on the proposed amendments.

DATES: Comments must be received on or before January 22, 2007.
