### NMFS Action

Section 120 of the MMPA lists 4 factors that NMFS must consider in evaluating an application for approval or denial. These factors are as follows:

1. Population trends, feeding habits, the location of the pinniped interaction, how and when the interactions occurs, and how many individual pinnipeds are involved;

2. Past efforts to nonlethally deter such pinnipeds, and whether the applicant has demonstrated that no feasible and prudent alternatives exist and that the applicant has taken all reasonable nonlethal steps without success;

3. The extent to which such pinnipeds are causing undue injury or impact to, or imbalance with, other species in the ecosystem, including fish populations; and

4. The extent to which such pinnipeds are exhibiting behavior that presents an ongoing threat to public safety.

NMFS considered these factors in the initial application and the modification to the initial LOA and a detailed description of these considerations was included in the 1995 and 1996 EAs. The 2001 EA briefly discusses relevant new information in these considerations and concludes that LOA should be extended because there is no substantial change in the system since the initial evaluation. The range-wide pinniped population has increased although the seasonal distribution of animals in Puget Sound has decreased. Steelhead numbers have continued to decline, and any predation continues to have a significant adverse impact on the run. Based on these considerations, the state's request, the available information on the critically depressed steelhead run, the continued presence of sea lions in the Lake Washington Ship Canal and Locks area, and consideration of comments from Task Force members (no public comments were received), NMFS has extended the LOA for 5 years to June 30, 2006. No other changes were made to the terms and conditions of the LOA. As required by the National Environmental Policy Act, NMFS has prepared an EA of the environmental consequences of extending the existing LOA. A copy of the LOA and accompanying EA is available via the Internet (see Electronic Access).

**SUPPLEMENTARY INFORMATION:** Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d, *et seq.* and its implementing regulations provide that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program or activity that receives federal financial assistance.

The purpose of this policy guidance is to clarify the responsibilities of recipients of federal financial assistance from the Corporation, and assist them in fulfilling their responsibilities to limited English proficient (LEP) persons, pursuant to Title VI of the Civil Rights Act of 1964 and implementing regulations. The policy guidance reiterates the Corporation's longstanding position that in order to avoid discrimination against LEP persons on the grounds of national origin, recipients must take reasonable steps to ensure that such persons have meaningful access to the programs, services, and information those recipients provide, free of charge.

This document was originally published on January 16, 2001. See 66 FR 3548. The document was based on the policy guidance issued by the Department of Justice entitled "Enforcement of Title VI of the Civil Rights Act of 1964—National Origin Discrimination Against Persons with Limited English Proficiency." 65 FR 50123 (August 16, 2000).

On October 26, 2001 and January 11, 2002, the Assistant Attorney General for Civil Rights issued to federal departments and agencies guidance memoranda, which reaffirmed the Department of Justice's commitment to ensuring that federally assisted programs and activities fulfill their LEP responsibilities and which clarified and answered certain questions raised regarding the August 16th publication. The Corporation is presently reviewing its original January 16, 2001, publication in light of these clarifications, to determine whether there is a need to clarify or modify the January 16th guidance. In furtherance of those memoranda, the Corporation is republishing its guidance for the purpose of obtaining additional public comment.

The policy guidance includes examples of promising practices that provide access to LEP persons in the various service programs. It also explains further who is covered by this guidance. The text of the complete guidance document appears below.
