

plans, re-inspections, and issuing AHERA accreditations. The Division's Enforcement Branch is responsible for enforcement actions involving AHERA violations. Kentucky commits approximately four persons each year to AHERA compliance monitoring and enforcement activities under the EPA TSCA Asbestos Enforcement Grant. Staff is fully-trained and certified as Contractor/Supervisor, Inspector, and Management Planner.

5. Kentucky will devote adequate resources to the administration and enforcement of the asbestos inspection and management provisions relating to the waiver request.

EPA's Preliminary Determination

EPA has determined preliminarily that the resources developed by the Kentucky Division for Air Quality are adequate to effectively administer and enforce the provisions of the asbestos program in Kentucky. Kentucky continues to receive funding through an EPA cooperative agreement in the amount of \$60,000 with state matching funds of \$20,000 for a total of \$80,000 for FY 2006.

6. Kentucky gives satisfactory assurances that the necessary steps, including specific actions it proposes to take and a time schedule for their accomplishment, will be taken within a reasonable time to conform with criteria numbers 2–4 above.

EPA's Preliminary Determination

For EPA to grant a full waiver to Kentucky for its asbestos-in-schools program, the Commonwealth, as a condition of the grant, would need to give a written assurance satisfactory to EPA that if, any provision of either TSCA section 203 or the AHERA Schools Rule is changed, the Commonwealth would, within a reasonable period of time, make appropriate changes, as necessary, to the statutory and regulatory provisions of its asbestos-in-schools program to ensure that the program remains at least as stringent as the EPA asbestos-in-schools program.

In addition, if a waiver is granted and as long as it remains in effect, Kentucky would need to continue its asbestos-in-schools implementation and enforcement strategy utilizing adequate resources. EPA may evaluate periodically the adequacy of Kentucky's program under 40 CFR 763.98, and under circumstances set forth in the regulation, may in whole or in part rescind the waiver if the Agency determines the program to be inadequate.

F. What Recordkeeping and Reporting Burden Approvals Apply to the Kentucky Waiver Request?

The recordkeeping and reporting burden associated with waiver requests was approved by the Office of Management and Budget (OMB) under OMB control number 2070–0091. This document simply announces the Agency's receipt of the Kentucky waiver request and therefore it imposes no additional burden beyond that covered under existing OMB control number 2070–0091.

II. Materials in the Official Record

The official record, under Docket ID Number EPA–HQ–OPPT–2005–0096, contains the Kentucky waiver request, and any other supporting or relevant documents.

Dated: May 11, 2006.

SUPPLEMENTARY INFORMATION: Notice is hereby given that a petition has been received from the Commonwealth of Massachusetts requesting a determination by the Regional Administrator, U.S. Environmental Protection Agency, pursuant to section 312(f)(3) of Public Law 92–500 as

amended by Public Law 95–217 and Public Law 100–4, that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for all waters of Plymouth Bay, Plymouth Harbor, Kingston Bay, and Duxbury Bay; their respective coastlines and coastal tidal rivers within the following boundaries:

Waterbody/general area	Latitude	Longitude
North to include the northernmost reaches of the Back River	42°04'06" N	70°39'12" W
West to Kingston-Route 3A bridge over the Jones River	41°59'48" N	70°44'30" W
South to Plymouth-Route 3A bridge over the Eel River and southernmost waters of Warren Cove	41°56'51" N	70°37'55" W
Duxbury municipal boundary	42°04'22" N	70°38'55" W
East to navigational marker N "8" located off Howland Ledge	42°04'36" N	70°36'48" W
South to navigational marker RW "GP" Bell located east of Gurnet Point	41°59'57" N	70°35'03" W
South to navigation Marker R "12" Whistle located off Mary Ann Rocks	41°55'07" N	70°33'22" W
South to navigation marker RW "CC" Bell located off the Cape Cod Canal	41°48'52" N	70°27'38" W
West to Plymouth municipal boundary.	41°48'38" N	70°32'13" W

The delineation places the eastern boundary 9,900 feet seaward of Duxbury Beach at the public parking area; 4,775 feet seaward of Gurnet Point; 6,775 feet seaward of Manomet Point; and 15,000 feet seaward of Peaked Cliff.

The proposed NDA is boarded by the town of Marshfield to the north and the town of Bourne to the south.

Massachusetts has certified that there are six pumpout facilities at four locations within the proposed area available to the boating public. A list of the facilities, phone numbers, locations, and hours of operation is appended at the end of this petition. Brewer's Plymouth Marine has a shore-side facility which connects directly to the municipal sewer system. The town of Plymouth operates a pumpout boat and shoreside facility. The shore-side facility serves three individual hose stands and has the ability to service two vessels simultaneously. The shore-side facility connects directly to the municipal sewer system. The town of

Duxbury operates a pumpout boat and shore side facility and waste is removed by a licensed hauler. The town of Kingston operates a pumpout boat and the waste is removed by a licensed hauler.

Massachusetts has provided documentation indicating that the total vessel population is estimated to be 2885 in the proposed area. Of these, approximately 1403 are identified as resident recreational vessels, 123 are identified as resident commercial, and 1359 are identified as transient vessels. It is estimated that 1340 of the total vessel population may have a Marine Sanitation Device (MSD) of some type. These figures are conservative because Massachusetts calculates the percentage of vessels having MSDs using region-specific estimates.

There are three primary boat ramps within the proposed NDA. In addition, there are two primary beaches, Long Beach and Duxbury beach, as well as 14 smaller beaches in the proposed area.

The Ellisville Harbor Area of Critical Environmental Concern (ACEC) is also located within the proposed area.

The area is used by both recreational and commercial shell fishermen. The total growing area for shellfish in the proposed area is approximately 65,000 acres of productive use, supporting soft shell clams, surf clams, razor clams, quahogs, bay scallops, and blue mussels. The town of Plymouth supports a thriving commercial fishing fleet. Species of commercial and recreational interest include alewife, cod, blueback herring, smelt, striped bass, and winter flounder, among others. The proposed area has a variety of rich natural habitats, and supports a wide diversity of species. The federally listed species include the bald eagle, shortnose sturgeon, piping plover, and puritan tiger beetle as well as dozens of state designated rare and endangered species.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority

May 22, 2006.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Persons wishing to comment on this information collection should submit comments July 31, 2006. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit your Paperwork Reduction Act (PRA) comments by e-mail or U.S. postal mail. To submit your comments by e-mail send them to: PRA@fcc.gov. To submit your comments by U.S. mail, mark it to the attention of Judith B. Herman, Federal Communications Commission, 445 12th Street., SW., Room 1-C804, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s) send an e-mail to PRA@fcc.gov or contact Judith B. Herman at 202-418-0214. If you would like to obtain or view a copy of this information collection, you may do so by visiting the FCC PRA Web page at: <http://www.fcc.gov/omd/pra>.
