

Estimated total average number of responses for each respondent: This varies from once every five years, to case-by-case, depending on the category of information.

Estimated total annual burden hours: 61,377 hours.

Estimated total annual costs: \$1.3 million. This includes an estimated burden cost of \$1.3 million and an estimated cost of \$0 for capital investment or maintenance and operational costs. The average annual reporting burden varies depending on the size of the respondent and the category of the information collection.

Are There Changes in the Estimates From the Last Approval?

There will be a decrease in hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects EPA's estimate of a decrease in the number of respondents, with a corresponding decrease in the total estimated respondent burden. The new revised estimates will be presented when the final ICR package is submitted to OMB review and approval. This change is an adjustment.

What is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) enhance the quality, utility, and clarity of the information to be collected; and
- (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When Preparing Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

- 1. Explain your views as clearly as possible and provide specific examples.
- 2. Describe any assumptions that you used.
- 3. Provide copies of any technical information and/or data you used that support your views.
- 4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
- 5. Offer alternative ways to improve the collection activity.
- 6. Make sure to submit your comments by the deadline identified under DATES.
- 7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

To What Information Collection Activity or ICR Does This Apply?

In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following ICR for renewal: NSPS for Stationary Compression Ignition Internal Combustion Engines; EPA ICR Number 2196.03, OMB Control Number 2060-0590; Docket ID Number EPA-HQ-OECA-2008-0899.

Affected entities: Entities potentially affected by this action are facilities with stationary compression internal combustion engines.

Title: NSPS for Stationary Compression Ignition Internal Combustion Engines (40 CFR Part 60, Subpart III).

ICR numbers: EPA ICR Number 2196.03, OMB Control Number 2060-0590.

ICR status: This ICR is currently scheduled to expire on August 31, 2009. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A and any changes, or additions to the General Provisions specified at 40 CFR part 60, subpart III.

Owners or operators of the affected facilities must make an initial notification and keep records related to engine performance.

Burden Statement: The existing ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized below. The annual public reporting and recordkeeping burden for this collection of information is estimated to average approximately one hour per response.

Estimated Number of Respondents: 152,546.

Frequency of Response: Initially.

Estimated Total Annual Hour Burden: 152,733.

Estimated Total Annual Cost: \$242,000, which is comprised of no annualized capital/startup costs and O&M costs of \$242,000.

Are There Changes in the Estimates from the Last Approval?

It is anticipated that the number of respondents will increase to approximately 210,000 for this ICR due to full implementation of the standard so that it covers all affected entities. The existing ICR uses the average number of respondents during the initial period of implementation.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.
