

required conditions of Federal laws. The information transmitted by Form MA 8–7 is used by the Secretary to make findings (as specified in the above cited Federal laws) required for certification to the Secretary of the Treasury for payment to states or for certification of the state law for purposes of providing additional tax credits to employers in states with UC laws conforming to Federal law. If this information is not available, the Secretary cannot make such certifications. To facilitate transmittal of required material, DOL prescribes the use of Form MA 8–7, Transmittal for Unemployment Insurance Materials. This simple check-off form is used by the states to identify material being transmitted to ETA's National Office and allows the material to be routed to appropriate staff for prompt action. With this renewal, DOL is proposing that the MA 8–7 document be revised to clarify that states are not required to send documents that ETA already collects through its subscription services. 20 CFR 601.2 and 601.3 authorize this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should OMB control number 1205–0222.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/ information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submission of responses).

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

State Workforce Agencies (SWAs) administer the Unemployment Compensation for Ex-servicemembers (UCX) program in accordance with the same terms and provisions of the paying State's unemployment insurance law, which apply to unemployed claimants who work in covered employment in the private sector. SWAs must be able to obtain certain information (wage and separation data) about each claimant filing claims for UCX benefits to support SWAs in making determination of the claimant's eligibility for benefits. DOL has prescribed a form to enable SWAs to obtain this necessary information from the individual's military branch. Form ETA–843 is essential to the UCX claims process, and the frequency of use varies depending upon the

circumstances involved. In FY 2024, the number of UCX claims dropped to 21,472, down from 34,698 in FY 2021, which was the figure used in the calculations of the previous submission. This decline in UCX claims has also led to a reduction in burden hours. Sections 8521–8525 of Title 5 of the U.S. Code authorizes this information collection.

The ETA 538 and ETA 539 reports are submitted weekly and contain information on initial claims and continued weeks claimed for the Unemployment Insurance (UI) program. These figures are important economic indicators. The ETA 538 report provides information that allows UI claims data to be released to the public five days after the close of the reference period. The ETA 539 report contains more detailed weekly claims information including the State's 13-week insured unemployment rate, which determines eligibility for the Extended Benefits program. Section 303(a)(6) of the Social Security Act and 20 CFR 615.15 authorize this information collection.
