BILLING CODE 6210-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Proposed Collection: Comment Request

In compliance with the requirement for opportunity for public comment on proposed data collection projects (section 3506(c)(2)(A) of Title 44, United States Code, as amended by the Paperwork Reduction Act of 1995, Pub. L. 104-13), the Health Resources and Services Administration (HRSA) publishes periodic summaries of proposed projects being developed for submission to the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995. To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, e-mail paperwork@hrsa.gov or call the HRSA Reports Clearance Officer on (301) 443-1129.

Comments are invited on: (a) The proposed collection of information for

the proper performance of the functions of the agency; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project Title: Evaluation of the National Healthy Start Program (New).

Background: The National Healthy Start Program, funded through the Health Resources and Services Administration's (HRSA) Maternal and Child Health Bureau (MCHB), was developed in 1991 with the goal of reducing infant mortality disparities in high-risk populations through community-based interventions. The program originally began as a 5-year demonstration project within 15 communities that had infant mortality rates 1.5 to 2.5 times above the national average. The National Healthy Start Program has since expanded in size and mission to include 102 grantees across the Nation emphasizing a community-based, culturally competent approach to the delivery of care for women and their babies. MCHB seeks to conduct a cross-site evaluation of all Healthy Start grantees to document the accomplishments made by the National Healthy Start Program.

Purpose: The purpose of the survey is to collect consistent data on the services and activities of all 102 Healthy Start grantees. The data collected through this survey will be used to:

- Evaluate the grantees' performance and progress toward achieving short-term and long-term goals;
- Evaluate the relationship of performance and progress to implementation features of Healthy Start Program components;
- Assist MCHB in determining on a national level where technical assistance may be needed to improve program performance, set future priorities for program activities, and contribute to the overall strategic planning activities of MCHB; and
- Provide foundation data for future measurement of the initiative's long-term impact.

Respondents: The project directors of the Healthy Start grants will be the respondents for this data collection activity. The estimated response burden is as follows:

	Number of respondents	Responses per respondent	Total responses	Average hours per respondent	Total hour burden
Healthy Start Grantee Web Survey	102	1	102	4.0	408
Total	102	1	102	4.0	408

E-mail comments to paperwork@hrsa.gov or mail to the HRSA Reports Clearance Officer, Room 10-33, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: April 20, 2010.

Sahira Rafiullah,

Director, Division of Policy and Information Coordination.

BILLING CODE 4165-15-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Proposed Collection; Comment Request; NIH Toolbox for Assessment of Neurological and Behavioral Function

SUMMARY: In compliance with the requirement of Section 3506(c)(2)(A) of

the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the National Institute on Aging (NIA), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection

Title: NIH-Toolbox for Assessment of Neurological and Behavioral Function. **Type of Information Collection Request:** New. **Need and Use of Information Collection:** The overall goal of the Toolbox project is to develop unified, integrated methods and measures of four domains of neurological and behavioral functioning (cognitive, emotional, motor and sensory) for use in large longitudinal or epidemiological studies where functioning is monitored over time. The current phase ("Norming"), will involve a large sample of 5,660 for the purpose of establishing comparative norms. We will screen

52,800 households for members' age, gender and primary language to recruit the participants. The targeted population will be non-institutionalized U.S. residents, aged 3-85, with 66% English-speaking and 34% Spanish-speaking. **Frequency of Response:** Once to the screener, and once or twice (depending on subsample). **Affected Public:** Individuals. **Type of Respondents:** U.S. residents (persons aged 3-85 years). The annual reporting burden is as follows: **Estimated Number of Respondents:** 52,800 for the screener and 5,660 for the Toolbox measures; **Estimated Number of Responses per Respondent:** 1 screening and 1-2 for selected participants; **Average Burden Hours per Response:** For the screener, 0.1 and 2.49 for selected participants; and **Estimated Total Annual Burden Hours Requested:** 21,480. The annualized cost to respondents is estimated at: \$393,250. There are no Capital Costs, Operating Costs, and/or Maintenance Costs to report.

Type of respondents	Estimated number of respondents	Estimated number of responses per respondent	Average burden hours per response	Estimated total annual burden hours requested
Screening				
Household member	52,800	1	.1	5,280
Adults				
Not affiliated with participating child, single assessment	1710	1	3	5,130
Not affiliated with participating child, two assessments	350	2	3	2,100
Non-participating parent of participating child, single assessment	910	1	0.5	455
Non-participating parent of participating child, two assessments	350	2	0.5	350
Participating parent of participating child, single assessment	390	1	3.5	1,365
Participating parent of participating child, two assessments	150	2	3.5	1,050
Children				
Single assessment	1300	1	2.5	3,250
Two assessments	500	2	2.5	2,500
Totals	*54,600			21,480

*Includes one adult from each screened household plus selected child participants.

Request for Comments: Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the

agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility,

and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other
