Extension of Period for Objection Concerning Notice of Data Availability for EGU NO_x Annual and NO_x Ozone Season Allocations for the Clean Air Interstate Rule Federal Implementation Plan Trading Programs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice to extend period for objections.

SUMMARY: EPA is extending the period for submission of objections concerning the notice of data availability (NODA) for EGU NO_x Annual and NO_x Ozone Season Allocations for the Clean Air Interstate Rule Federal Implementation Plan Trading Programs (CAIR FIP) published on August 4, 2006 for an additional 90 days with regard to cogeneration units combusting biomass (biomass cogeneration units). The period had previously been extended to October 5, 2006 for all objections and will be further extended to January 3, 2007 only for objections concerning biomass cogeneration units. Certain biomass cogeneration unit owners and operators requested the additional time to submit objections because of difficulties in collection of information relating to the application of efficiency standards for cogeneration units (as defined in the CAIR FIP) to biomass cogeneration units. For all other objections, the deadline remains October 5, 2006.

DATES: The EPA is establishing a period ending on January 3, 2007 only for objections (including data) related to biomass cogeneration units. Objections must be postmarked by the last day of the period for objection and sent directly to the Docket Office listed in **ADDRESSES** (in duplicate form if possible).

ADDRESSES: Submit your objections, identified by Docket Number OAR-2004-0076 by one of the following methods:

A. Federal Rulemaking Portal: <http://www.regulations.gov>. Today's action is not a rulemaking but you may use the Federal Rulemaking Portal to submit objections to the NODA. To submit

objections, follow the on-line instructions for submitting comments.

B. *Mail:* Air Docket, ATTN: Docket Number OAR—2004–0076, Environmental Protection Agency, Mail Code: 6102T, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

Docket@epa.gov.

D. *Hand Delivery:* EPA Docket Center, 1301 Constitution Avenue, NW., Room B102, Washington, DC. Such deliveries are only accepted during the Docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Note: The EPA Docket Center suffered damage due to flooding during the last week of June 2006. The Docket Center is continuing to operate. However, during the cleanup, there will be temporary changes to Docket Center telephone numbers, addresses, and hours of operation for people who wish to make hand deliveries or visit the Public Reading Room to view documents. The Docket Center's mailing address for U.S. mail and the procedure for submitting comments to www.regulations.gov are not affected by the flooding and will remain the same.

Publicly available docket materials are available either electronically in www.regulations.gov or in hard copy at the EPA Docket Center, EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. Extension of Period for Objections

In the August 4, 2006 NODA (71 FR 44283), EPA provided notice that it had placed in the CAIR FIP docket allocation tables for EGU NO_x annual and EGU NO_x ozone season allocations for control periods 2009–2014. The allocation tables also included inventories of heat input and inventories of potentially exempt units. In addition, EPA also placed in the docket a Technical Support Document describing the allocation table data fields.

The EPA originally provided a 30-day period for the unit owners, unit operators, and the public to submit objections regarding individual units' treatment as potentially covered or not covered by CAIR and, for units treated as potential CAIR units, the data used in the allocation calculations and the allocations resulting from such calculations. In response to a request from the American Forest and Paper Association, EPA extended the period for all objections an additional 30 days to October 5, 2006.

In requesting an additional extension of the period, certain biomass cogeneration unit owners have noted the unique nature of the fuels utilized by biomass cogeneration units and the difficulties encountered in collecting data necessary to apply the efficiency standard to this type of cogeneration unit. In light of these circumstances, the EPA is extending the period an additional 90 days only for objections (including data) related to any biomass cogeneration units. For all other objections, the deadline will remain October 5, 2006. EPA believes the addition of 90 days will provide the Agency time to evaluate and, if appropriate, address the concerns raised about application of the efficiency standard to biomass cogeneration units. Since this process may affect the amount and type of data that may need to be submitted concerning biomass cogeneration units, EPA is extending the period for objections related to this type of cogeneration unit.

Dated: September 26, 2006.

Edward Callahan,

Acting Director, Office of Air and Radiation.
