Announcement of the Award of a Single-Source Program Expansion Supplement Grant to the U.S. Committee for Refugees and Immigrants in Arlington, VA

AGENCY: Office of Refugee Resettlement, ACF, HHS.

ACTION: Announcement of the award of a single-source program expansion supplement to the U.S. Committee for Refugees and Immigrants (USCRI) to support expanded services to foreign trafficking victims, potential trafficking victims, and certain family members.

SUMMARY: The Administration for Children and Families (ACF), Office of Refugee Resettlement (ORR) announces the award of a single-source program expansion supplement grant to U.S. Committee for Refugees and Immigrants in Arlington, Virginia for a total of \$1,060,805.

The supplemental funding will ensure that clients' essential needs, such as housing, transportation, communication, food, and medical care, will be met. The supplemental funding will also ensure that USCRI has sufficient staff for the increased number of cases.

DATES: The period of support under these supplements is June 01, 2015 through September 29, 2015.

FOR FURTHER INFORMATION CONTACT:

Maggie Wynne, Director, Division of Anti-Trafficking in Persons, Office of Refugee Resettlement, 901 D Street SW., Washington, DC 20024, Telephone (202) 401-4664. Email: maggie.wynne@acf.hhs.gov.

SUPPLEMENTARY INFORMATION: The National Human Trafficking Victim Assistance Program (NHTVAP) provides funding for comprehensive case management services to victims of trafficking and certain family members on a per capita basis. The NHTVAP grantees help clients gain access to housing, employability services, mental health screening and therapy, medical care, and some legal services. During FY 2015, a grantee, U.S. Committee for Refugees and Immigrants (USCRI), served more clients than it had planned for in its budget for the year. Without the additional funding, USCRI would have to make significant cuts in services to current clients and limit the enrollment of new clients. Also, without additional funding USCRI would not have sufficient programmatic support for the increase in client enrollments. With the supplemental funding, USCRI will be able to ensure that all of the clients' essential needs will be met.

Statutory Authority: Trafficking Victims Protection Act of 2000 (TVPA), as amended, Section 107(b)(1)(B), 22 U.S.C. 7105(b)(1)(B), authorizes funding for benefits and services to foreign victims of severe forms of trafficking in persons in the United States, potential victims of trafficking seeking HHS Certification, and certain family members.

The Food and Drug Administration's Education and Outreach Program Targeting School-Aged Children

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; U48.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability of grant funds for the support of the Center for Food Safety and Applied Nutrition's (CFSAN) Education and Outreach Program Targeting School-Aged Children (U48). The goal of the Education and Outreach Program Targeting School-Aged Children (U48) is to support educational outreach programs targeting school-aged children which promotes FDA's mission. As part of FDA's mission to promote and protect public health, the educational program's mission is to

perform outreach to schoolchildren using FDA-approved food safety and nutrition messages. This proposed cooperative agreement requires the supporting organization to provide teachers for one school year to extend CFSAN's outreach into schools.

DATES: The application due date is July 1, 2015, by 11:59 p.m. Eastern Time.

ADDRESSES: Submit electronic applications to: <http://www.grants.gov>. For more information, see section III of the **SUPPLEMENTARY INFORMATION** section of this notice.

A. Background

This FOA is soliciting an application from the Graduate School USA to support and extend the education programs of the Education Team in the Office of Analytics and Outreach. As part of its mission to promote and protect public health, the Education Team is tasked to implement targeted education programs that reach school-aged children using FDA-approved food safety and nutrition messages. This cooperative agreement requires the grantee to provide 37 teachers for one school year to extend CFSAN's reach into additional U.S. schools. The selected grantee must train and ensure that these 37 teachers will use the FDA curriculum Science and Our Food Supply (SOFS), which has been approved by FDA scientists. The grantee shall also guarantee that these teachers will use CFSAN's educational materials and, in turn, support and promote food safety and nutrition on a national scale.

This cooperative agreement will support the commitment of 37 middle and high school teachers to implement

the FDA-National Science Teachers Association (NSTA) supplementary food science curriculum SOFS, and includes one week of targeted training with this curriculum as the basis of instruction. It also includes a 1-day Enhancement Training session at the December NSTA Regional Conference. SOFS content is linked to specific national science education standards to help teachers integrate this content into their existing classroom materials. The course covers the latest research on food safety, food microbiology, epidemiology, and nutrition from FDA experts and scientists. These 37 teachers must conduct a train-the-teacher session for other science teachers in their area of the country on how to successfully use SOFS in their classrooms. To date, 620 teachers have completed the week-long program, reaching approximately 13,000 teachers and more than 7 million students across the country. Teachers in this program have represented all 50 states, the District of Columbia, the U.S. Virgin Islands, Guam, and Puerto Rico.

In recent years, CFSAN has added other training and online resources through the NSTA Learning Center, as well as FDA and Graduate School Web sites. The grantee shall assume the responsibilities of arranging print and electronic program advertisements to science teachers through science teacher journals, Web-based formats, and listservs (where appropriate). The grantee shall act as a National Training Coordinator for the year-round SOFS content delivery by teachers. In addition, the grantee shall oversee and coordinate exhibiting at one regional NSTA conference in the fall of 2015 and one national NSTA conference in spring 2016. The goal of this cooperative agreement is to provide continued support for this program, which requires around-the-calendar attention to cover the various stages of teacher primary training, in-school SOFS curriculum implementation, secondary training, and train-the-teacher programs, as well as to distribute food science education materials to teachers to promote student education in food safety and nutrition.

B. Research Objectives

Specific objectives of this support are to:

- Provide 37 teachers from diverse U.S. schools a weeklong course in food science in the Washington, DC metropolitan area;
- distribute approved food science curricula and other materials for the train-the-teacher session and exhibit at the national NSTA and regional NSTA conferences; and
