

use of FNIC resources by personnel at schools receiving USDA funds for Child Nutrition Programs. To collect this information, FNIC proposes to provide attendees of selected educated related conferences with a password to access a one-time, voluntary, electronic FNIC Resources usage survey. The information collected in this survey will assist FNIC staff in improving the resources provided to meet the needs of the targeted audience. The authority to collect this information is CFR, Title 7, Volume 1, Part 2, Subpart K, Sec. 2.65 (92).

Need and Use of the Information: FNIC will collect information to evaluate current FNIC resources and assist in planning and managing future projects. Failure to collect this information would inhibit FNIC's ability to ensure the resources FNIC provides are in accord with resources desired by targeted patron groups, such as personnel in schools participating in Child Nutrition Programs.

Description of Respondents: Not-for-profit institutions.

Number of Respondents: 200.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 50.

Animal and Plant Health Inspection Service

Title: CWD in Cervids; Payment of Indemnity.

OMB Control Number: 0579-0189.

Summary of Collection: Federal regulations contained in 9 CFR Subchapter B govern cooperative programs to control and eradicate communicable diseases of livestock from the United States. In accordance with 21 U.S.C. 111-113, 114, 115, 117, 120, 123, and 134a, the Secretary of Agriculture has the authority to promulgate regulations and take measures to prevent the introduction into the United States and the interstate dissemination within the United States of communicable diseases of livestock and poultry, and to pay claims growing out of the destruction of animals. Disease prevention is the most effective method for maintaining a health animal population and enhancing our ability to complete in exporting animals and animal products. Veterinary Services, a unit within USDA's Animal and Plant Health Inspection Service (APHIS), is charged with carrying out this disease prevention mission. Chronic wasting disease (CWD) is a transmissible spongiform encephalopathy (TSE) of elk and deer typified by chronic weight loss leading to death. The presence of chronic wasting disease in cervids causes significant economic and market

losses to U.S. producers. APHIS will collect information using VS Form 1-23 Appraisal & Indemnity Claim Form.

Need and Use of the Information: APHIS will collect the owner's name and address, the number of animals for which the owner is seeking payment, and the appraised value of each animal. The owner must also certify as to whether the animals are subject to a mortgage. If there is a mortgage, the form must be signed by the owner and each person holding a mortgage. Failure to collect this information would make it impossible for APHIS to launch its program to accelerate the eradication of chronic wasting disease from the United States.

Description of Respondents: Farms; Business or other for-profit.

Number of Respondents: 10.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 10.

Sondra A. Blakey,

Departmental Information Collection Clearance Officer.
