

the resilience of buildings, infrastructure, and social systems upon which communities rely. The Panel will consider the adequacy of standards, guidelines, best practices, and recommend, develop, and work with others to make improvements in community resilience.

The Panel will provide an open process for stakeholders to participate in the ongoing development, coordination and harmonization of community resilience guidance. The Panel will also evaluate existing metrics and standards to determine where improvements can be made to enhance resilience. Members will review case studies, recommend practices, coordinate, accelerate, and propose action plans for achieving community resilience goals.

The Panel will be managed and guided by the Community Resilience Panel Coordinating Committee (CRPCC) that approves and prioritizes work and arranges for the resources necessary to carry out its planned activities. The CRPCC's responsibilities include facilitating dialogue with standards development organizations and communities to ensure that proposed plans will be implemented.

A NIST contractor will serve as the Panel Administrator to review Panel documents and products approved by the CRPCC, add their own technical expertise to these deliverables prior to review by NIST, report on progress by managing the Panel's activities and ensure that all Panel work products are publicly available in the online Resilience Knowledge Base.

The Panel and CRPCC will constitute an open organization dedicated to balancing the needs of a variety of resilience related organizations. Any organization may become a member of the Panel. Members are required to declare an affiliation with an identified Stakeholder Category. Stakeholder members may contribute multiple Member Representatives, but only one voting Member Representative. Members must participate regularly in order to vote on the work products of the Panel.

The Panel membership form asks the applicant to provide his/her name, title, address, telephone, email address, organization, education, relevant work experience, standards developing experience, professional associations, stakeholder and standing committee areas of interest, as well as other relevant experience and areas of interest. The information provided by the applicants will be used to organize the Panel and select leaders who will use their expertise and experience in a consensus process that will achieve the

goals and actions set forth in the Panel Charter and ByLaws.

The Panel is established under a contract to support NIST in its role under the NIST authorities set forth in 15 U.S.C. 272(b)(10), (c)(12) and (c)(15) and to fulfill NIST's responsibilities described in the President's Climate Action Plan of 2013. The Panel will identify, describe, and prioritize guidance for comprehensive community resilience planning across the United States,

DATES: The workshop will take place August 17–19, 2015. Meeting times are Monday, August 17, from 1 p.m. to 6 p.m., Tuesday, August 18, from 8 a.m. to 6 p.m., and Wednesday, August 19, from 8 a.m. to 12 noon or until business for the workshop is complete.

FOR FURTHER INFORMATION CONTACT:

Kerry Griffin, Staff Officer; telephone: (503) 820–2409.

SUPPLEMENTARY INFORMATION: The purpose of the workshop is to consider scientific information, data, and potential alternative means for establishing the Distribution value used in the Pacific sardine harvest control rule (HCR). The workshop is not intended as a review of other aspects of the HCR, Pacific sardine harvest management, or policy. The current Distribution value of 0.87 is intended to account for the fact that some portion of the U.S. sardine stock is present and subject to harvest outside U.S. waters. It is intended as a long-term average,

recognizing that the distribution is variable because the sardine stock migrates seasonally and interannually.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Mr. Dale Sweetnam, (858) 546-7170, at least 5 days prior to the meeting date.
