SUPPLEMENTARY INFORMATION:

Title: Agricultural Surveys Program.

OMB Control Number: 0535–0213.

Expiration Date of Approval: April 30, 2024.

Type of Request: To revise and extend a currently approved information collection for a period of three years.

Abstract: The primary objective of the National Agricultural Statistics Service (NASS) is to collect, prepare and issue State and national estimates of crop and livestock production, prices and disposition as well as economic statistics, farm numbers, land values, on-farm pesticide usage, pest crop management practices, as well as the Census of Agriculture. The Agricultural Surveys Program contains a series of surveys that obtains basic agricultural data from farmers, ranchers, and feedlots throughout the Nation for preparing agricultural estimates and forecasts of crop acreage, yield, and production; stocks of grains and soybeans; hog and pig numbers; sheep inventory and lamb crop; cattle inventory; cattle on feed; grazing fees; and land values. Uses of the statistical information collected by these surveys are extensive and varied. Producers, farm organizations, agribusinesses, commodity exchanges, State and national farm policy makers, and government agencies are important users of these statistics. Agricultural statistics are used to plan and administer other related Federal and State programs in such areas as consumer protection, conservation, foreign trade, education, and recreation.

Revisions to burden are needed due to changes in the size of the target population, sample design, and minor changes in questionnaire design.

These data will be collected under the authority of 7 U.S.C. 2204(a).

Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, as amended, 7 U.S.C. 2276,

which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 Public Law 104–13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320. All NASS employees and NASS contractors must also fully comply with all provisions of the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2018, title III of Public Law 115–435, codified in 44 U.S.C. ch. 35. CIPSEA supports NASS's pledge of confidentiality to all respondents and facilitates the agency's efforts to reduce burden by supporting statistical activities of collaborative agencies through designation of NASS agents, subject to the limitations and penalties described in CIPSEA.

Estimate of Burden: Public reporting burden for this collection of information will range from 5 to 40 minutes per response.

Respondents: Farmers, Ranchers and Feed Lots.

Estimated Number of Respondents: 492,000.

Estimated Total Annual Burden on Respondents: 185,000 hours.

Comments: Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.
