

material described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Miraclon from customs duty payments on the foreign-status material used in export production. On its domestic sales, for the foreign-status material noted, Miraclon would be able to choose the duty rate during customs entry procedures that apply to flexographic printing plates, aluminum printing plates, direct imaging film, and thermo imaging layer film (duty-free to 3.7%). Miraclon would be able to avoid duty on foreign-status material which becomes scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The material sourced from abroad is polyethylene terephthalate (PET) film (duty rate, 3.7%). The request indicates that PET film is subject to antidumping/countervailing duty (AD/CVD) orders and investigations if imported from certain countries. The FTZ Board's regulations (15 CFR 400.14(e)) require that merchandise subject to AD/CVD orders, or items which would be otherwise subject to suspension of liquidation under AD/CVD procedures if they entered U.S. customs territory, be admitted to the zone in privileged foreign status (19 CFR 146.41). The request also indicates that PET film is subject to duties under Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is December 15, 2020.
