The Department of Education is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. *Abstract:* The Department of Education (the Department) requests extension of this information collection regarding Institutional Eligibility regulations in § 600.9—State Authorization. The regulations in § 600.9(c)(2)(i) require an institution to determine in which State a student is located while enrolled in a distance education or correspondence course when the institution participates in a State authorization reciprocity agreement under which it is covered in accordance with the institution's policies and procedures. The updates to the policies and procedures are not reported to the Department nor is there a specified format for such information.

The regulations in § 600.9(c)(2)(ii) require an institution, upon request from the Secretary, provide the written documentation of its determination of a student's location, including the basis for such determination. There is no specific form or format for the institutions to provide this information to the Department upon request. It is anticipated that an institution would provide the pertinent portions of the policy and procedures manual to respond to such a request from the

Department, but it may provide the requested information in another method.
