

the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (PRA): Assessment of Environmental Performance Standards and Ecolabels for Federal Procurement (EPA ICR Number 2516.04 and OMB Control Number 2070-0199). This is a request to reinstate a previously approved ICR. Public comments were previously requested via the **Federal Register** on March 1, 2022, during a 60-day comment period. This notice allows for an additional 30 days for public comments. The ICR, a copy of which is in the docket and briefly summarized in this document, describes the covered information collection activities, along with the Agency's estimated burden and cost. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before September 12, 2022.

ADDRESSES: Submit your comments to EPA, referencing Docket ID No. EPA-HQ-OPPT-2014-0838, online using <https://www.regulations.gov> (our preferred method), or by mail to: Environmental Protection Agency, EPA Docket Center, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. For additional delivery options and information about EPA's dockets, visit <https://www.epa.gov/dockets>. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Katherine Sleasman, Regulatory Support Branch, Office of Chemical Safety and Pollution Prevention, 7101M, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone: (202) 566-1204; email: sleasman.katherine@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain

in detail the information that the EPA will be collecting, are available in the docket for this ICR. The docket can be viewed online at <https://www.regulations.gov> or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about accessing the EPA dockets, visit <https://www.epa.gov/dockets>.

Abstract: This ICR, which seeks to reinstate a previously approved ICR, covers the information collection activities associated with the Agency's evaluation of private sector standards and ecolabels under the updated Framework for the Assessment of Environmental Performance Standards and Ecolabels for Federal Purchasing. EPA's goal in developing this Framework is to create a transparent, fair, and consistent approach to evaluate product environmental performance standards and ecolabels for inclusion in EPA's Recommendations of Specifications, Standards, and Ecolabels for Federal Purchasing ("Recommendations"). The Recommendations help federal purchasers identify and procure environmentally preferable products and services which in turn, help to meet their sustainability goals and requirements.

Form Numbers: EPA Form No. 9600-038.

Respondents/affected entities: Environmental performance standards developers and ecolabels.

Respondent's obligation to respond: Voluntary. See 15 U.S.C. 3701 and 42 U.S.C. 13103(b)(11).

Estimated number of respondents: 100 (total).

Frequency of response: On occasion.

Total estimated burden: 707 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$45,322 (per year), which includes an estimated cost of \$0 for capital investment or maintenance and operational costs.

Changes in the estimates: This is a reinstatement, so there is currently no approved burden and costs. As described in more detail in the ICR, the program has been modified based on the previously approved activities associated with the 2016 pilot, including changes to the criteria/questions, Framework submission template, and the process for respondents. With this ICR, EPA is requesting approval for the average respondent burden that is estimated to be 8.5 hours per response, based on an average 12 hours for respondents that

did not previously participate in the pilot and an average 5 hours for respondents that did previously participate in pilot.

Courtney Kerwin,

Director, Regulatory Support Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Inorganic Arsenic Emissions From Primary Copper Smelters (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Inorganic Arsenic Emissions from Primary Copper Smelters (EPA ICR Number 1089.07, OMB Control Number 2060–0044), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through October 31, 2022. Public comments were previously requested, via the **Federal Register**, on April 8, 2022, during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before September 12, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2022–0065, online using <https://www.regulations.gov/> (our preferred method), or by email to docket@epa.gov; or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

For additional delivery options and information about EPA's dockets, visit <https://www.epa.gov/dockets>. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243–05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541–0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov/>, or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Inorganic Arsenic Emissions from Primary Copper Smelters (40 CFR part 61, subpart O) were proposed on July 20, 1983, and promulgated on August 4, 1986. These regulations apply to existing facilities and new facilities where the total

arsenic charging rate for the copper converter department averaged over a 1-year period is greater than 75 kg/hr (165 lb/hr), as determined under 40 CFR 61.174(f). New facilities include those that either commenced construction, or reconstruction, after the date of proposal. This information is being collected to assure compliance with 40 CFR part 61, subpart O.

Form Numbers: None.

Respondents/affected entities:

Primary copper smelters.

Respondent's obligation to respond: Mandatory (40 CFR part 61, subpart O).

Estimated number of respondents: 3 (total).

Frequency of response: Quarterly, annual.

Total estimated burden: 6,260 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$753,000 (per year), which includes \$1,500 in annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is an increase in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. The increase is due to revisions to the labor burden associated with certain tasks including performing monthly Method 108A sample collection, calculations, and the time to record results. This ICR adjusts the burden for these activities based on comments received from industry and incorporates additional burden hours. The comments reflected additional time to complete activities and resulted in an increase in labor burden.

Courtney Kerwin,

Director, Regulatory Support Division.
