DEPARTMENT OF LABOR

Office of the Assistant Secretary for Administration and Management; Agency Information Collection Activities: Proposed collection; Comment request; Applicant Background Questionnaire

AGENCY: Office of the Assistant Secretary for Administration and

Management (OASAM), Department of Labor.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its obligation to provide equal employment opportunities, is charged with ensuring that qualified individuals in groups that are under-represented in various occupations, are included in applicant pools for the Department's positions. See 5 U.S.C. 7201(c); 29 U.S.C. 791; 29 U.S.C. 2000e-16; 5 CFR 720.204; 29 CFR 1614.101(a). To achieve this goal, DOL employment offices have conducted targeted outreach to a variety of sources, including educational institutions, professional organizations, newspapers and magazines. DOL has also participated in career fairs and conferences that reach high concentrations of Hispanics, African Americans, Native Americans, Asians, and persons with disabilities.

Without the data provided by this collection, DOL does not have the ability to evaluate the effectiveness of any of these targeted recruiting strategies because collection of racial and national origin information only occurs at the point of hiring. DOL needs to collect data on the pools of applicants which result from the various targeted recruitment strategies listed above. After the certification and selection process has been completed, it is necessary to cross-reference the data collected with the outcome of the qualifications review in order to evaluate the quality of applicants from various recruitment sources. With the information from this collection, DOL can adjust and redirect its targeted recruitment to achieve the best result. DOL will also be able to respond to requests for information received from the Office of Personnel Management (OPM) in the course of OPM evaluation and oversight activities.

II. Desired Focus of Comments

- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, for example, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
