The Mineral Leasing Act of 1920 (MLA) (30 U.S.C. 181 *et seq.*) and the Geothermal Steam Act of 1970 (30 U.S.C. 1001-1025) authorize the Secretary of the Interior to issue leases for development of Federal oil and gas and geothermal resources. The Act of August 7, 1947 (Mineral Leasing Act for Acquired Lands) authorizes the Secretary to lease lands acquired by the United States (30 U.S.C. 341-359). The Department of the Interior Appropriations Act of 1981 (42 U.S.C. 6508) provides for the competitive leasing of lands for oil and gas in the National Petroleum Reserve—Alaska (NPPRA). The Attorney General's Opinion of April 2, 1941 (40 Opinion of the Attorney General 41) provides the basis under which the Secretary issues certain leases for lands being drained of mineral resources. The Federal Property and Administrative Services Act of 1949 (40 U.S.C. 471 *et seq.*) provides the authority for leasing lands acquired from the General Services Administration.

Assignor/transferor submits Form 3000-3, Assignment of Record Title Interest in a Lease for Oil and Gas or Geothermal Resources, and Form 3000-3a, Transfer of Operating Rights (Sublease) in a Lease for Oil and Gas or Geothermal Resources, to transfer interest in oil and gas or geothermal leases by assignment of record title or transfer operating rights (sublease) in oil and gas or geothermal leases under the regulations in 43 CFR subparts 3106, 3135, and 3216. These regulations outline the procedures for assigning record title interest and transferring operating rights in a lease to explore for, develop, and produce oil and gas resources and geothermal resources.

The assignor/transferor provides the required information to comply with the regulations in order to process the assignments of record title interest or transfer of operating rights (sublease) in a lease for oil and gas or geothermal resources. The assignor/transferor submits the required information to BLM for approval under 30 U.S.C. 187a and the regulations at 43 CFR subparts 3106, 3135, and 3216.

BLM uses the information submitted by the assignor/transferor to identify the interest ownership that is assigned or transferred and the qualifications of the assignee-transferee. BLM determines whether the assignee-transferee is qualified to obtain the interest sought and ensures that the assignee/transferee does not exceed statutory acreage limitations.

Based on BLM's experience administering the activities described above, we estimate it takes 30 minutes per response to gather and provide the required information. The respondents include individuals, small businesses, and large corporations. The frequency of response is occasional. We estimate 60,000 responses per year and a total annual burden of 30,000 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

Dated: November 14, 2008.

Ted R. Hudson,

Acting Information Collection Clearance Officer, Bureau of Land Management.

The Mineral Leasing Act of 1920 (MLA), 30 U.S.C. 191 *et seq.*, gives the Secretary of the Interior responsibility for oil and gas leasing on approximately 570 million acres of public lands and national forests, and private lands where the mineral rights are reserved by the Federal government. The Act of May 21, 1930 (30 U.S.C. 301-306), authorizes the leasing of oil and gas deposits under railroads and other rights-of-way. The Act of August 7, 1947 (Mineral Leasing Act of Acquired Lands), authorizes the Secretary to lease lands acquired by the United States (30 U.S.C. 341-359). The regulations under 43 CFR part 3000 *et al.* authorize BLM to manage the oil and gas leasing and exploration activities. Without the information, BLM would not be able to analyze and approve oil and gas leasing and exploration activities.

BLM collects nonform information on oil and gas leasing and exploration activities when the lessee, record title holder, operating rights owner, or operator files any of the following information for BLM to adjudicate:
