Information Collection Request Title: Evaluation of the National Partnership for Action to End Health Disparities.

Abstract: OMH in the Office of the Assistant Secretary for Health (OASH), Office of the Secretary (OS) is requesting approval from the Office of Management and Budget (OMB) for new data collection activities for the Evaluation of the National Partnership for Action to End Health Disparities (NPA). The NPA was officially launched in April 2011 to mobilize a nationwide, comprehensive, community-driven, and sustained approach to combating health disparities and to move the nation toward achieving health equity. Using an approach that vests those at the front line with the responsibility of identifying and helping to shape core actions, new approaches and new partnerships are being established to

help close the health gap in the United States.

OMH proposes to conduct an evaluation of the NPA. The evaluation's goal is to determine the extent to which the NPA has contributed to the elimination of health disparities and attainment of health equity in our nation. The evaluation will accomplish this goal by (1) Determining the degree to which a structure (e.g., partnerships, programmatic reach, communications, committees) to implement the NPA goals and strategies has been established; (2) The collection, analysis, and summarization of baseline data for core indicators of immediate and intermediate outcomes (e.g., changes in policy, procedures, and practices to diversify workforce, promote cultural competency, affect social determinants, build leadership, and increase public support for ending health disparities and achieving health equity); (3) Developing criteria for promising

practices for ending health disparities and identifying such practices; (4) Beginning to monitor data on social determinants of health and health outcomes using secondary sources.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.
