**SUPPLEMENTARY INFORMATION:** Under the  
Paperwork Reduction Act of 1995 (PRA)  
(44 U.S.C. 3501–3520), federal agencies  
must obtain approval from the Office of  
Management and Budget (OMB) for each  
collection of information they conduct  
or sponsor. In addition, the PRA also  
requires federal agencies to provide a  
60-day notice in the **Federal Register**  
concerning each proposed collection of  
information, including each new  
proposed collection, each proposed  
extension of existing collection of  
information, and each reinstatement of  
previously approved information  
collection before submitting the  
collection to the OMB for approval. To  
comply with this requirement, we are  
publishing this notice of a proposed  
data collection as described below.

The OMB is particularly interested in  
comments that will help:

1. Evaluate whether the proposed  
collection of information is necessary  
for the proper performance of the  
functions of the agency, including  
whether the information will have  
practical utility;
2. Evaluate the accuracy of the  
agency's estimate of the burden of the  
proposed collection of information,  
including the validity of the  
methodology and assumptions used;
3. Enhance the quality, utility, and  
clarity of the information to be  
collected;
4. Minimize the burden of the  
collection of information on those who  
are to respond, including through the  
use of appropriate automated,  
electronic, mechanical, or other  
technological collection techniques or  
other forms of information technology,  
*e.g.*, permitting electronic submissions  
of responses; and
5. Assess information collection costs.

#### Proposed Project

Youth Outreach Generic Clearance for  
the National Center for Health Statistics  
(NCHS) (OMB Control No. 0920–1185,

Exp. 7/31/2023)—Extension—National  
Center for Health Statistics (NCHS),  
Centers for Disease Control and  
Prevention (CDC).

#### Background and Brief Description

NCHS is authorized to collect data  
under Section 306 of the Public Health  
Service Act (42 U.S.C. 242k). NCHS has  
a history of reaching out to young  
people to encourage their interest in  
Science, Technology, Engineering and  
Math (STEM). Examples of past  
involvement include adopting local  
schools, speaking at local colleges,  
conducting a Statistics Day for high  
school students, and, most recently,  
conducting the NCHS Data Detectives  
Camp for middle school students.

The success of these programs has  
inspired NCHS leadership and staff to  
want to look for new and continuing  
opportunities to positively impact the  
lives of young people and expand their  
interest, understanding of, and  
involvement in the sciences. NCHS  
requests approval for a New Generic  
Clearance mechanism to collect  
information for these youth outreach  
activities and to inform future NCHS  
planning activities. The activities  
include hosting the Data Detectives  
Camp annually; hosting Statistics Day  
annually; creating youth poster sessions  
for professional conferences (such as the  
NCHS National Conference on Health  
Statistics or the American Statistical  
Association Conference *etc.*); hosting a  
statistical or health sciences fair or other  
STEM related competitions; organizing  
a STEM Career Day or similar activity;  
developing web-based sites or materials  
with youth focus as well as other  
programs developed to meet future  
youth outreach needs, particularly  
activities that encourage STEM.

Information will be collected using a  
combination of methodologies  
appropriate to each program. These may  
include: Registration forms, letters of  
recommendation, evaluation forms; mail  
surveys; focus groups; automated and  
electronic technology (*e.g.*, email, Web-  
based surveys); and telephone surveys.

OMB approval is requested for three  
years to conduct the Youth Outreach  
Generic Clearance for the National  
Center for Health Statistics (NCHS). The  
total estimated annualized burden hours  
are 1,750. Participation is voluntary,  
and there is no cost to respondents other  
than their time to participate.

#### Proposed Project

The Muscular Dystrophy Surveillance, Tracking, and Research Network (MD STARnet) Muscular Dystrophy Questionnaire—New—National Center on Birth Defects and Developmental Disabilities (NCBDDD), Centers for Disease Control and Prevention (CDC).

#### Background and Brief Description

Since its establishment in 2002, the MD STARnet has been a population-based surveillance system that aims to identify and collect clinical data on individuals with muscular dystrophy (MD) in select surveillance areas. MD STARnet identifies and collects data on cases at sources, including healthcare facilities where patients with MD
