

activities to provide employees a safe and healthy work environment. The data are also needed by the Bureau of Labor Statistics to report on the number and rate of occupational injuries and illnesses in the country. The data also provides information to employers and employees on the kinds of injuries and illnesses occurring in the workplace and their related hazards. Increased employer awareness should result in the identification and voluntary correction of hazardous workplace conditions. Likewise, employees who are provided information on injuries and illnesses will be more likely to follow safe work practices and report workplace hazards. This would generally raise the overall level of safety and health in the workplace. OSHA currently has approval from the Office of Management and Budget (OMB) for information collection requirements contained in 29 CFR 1904. That approval will expire on February 29, 2008, unless OSHA applies for an extension of the OMB approval. This notice initiates the process for OSHA to request an extension of the current OMB approval. This notice also solicits public comment on OSHA's existing paperwork burden estimates from those interested parties and seeks public response to several questions related to the development of OSHA's estimation. Interested parties are requested to review OSHA's estimates, which are based upon the most current data available, and to comment on their accuracy or appropriateness in today's workplace situation.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Standard 29 CFR Part 1904, Recording and Reporting Occupational Injuries and Illnesses.

The Agency is requesting to reduce its current burden hour estimate associated with this Standard from 3,306,650 to 3,072,980 hours for a total reduction of 233,670 hours. The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: 29 CFR part 1904, Recording and Reporting Occupational Injuries and Illnesses.

OMB Number: 1218-0176.

Affected Public: Business or other for-profit; farms; not-for-profit institutions; State and local government.

Cite/Reference/Form/etc.: 29 CFR part 1904; OSHA Form 300; OSHA Form 300A; OSHA Form 301.

Number of Respondents: 1,541,900.

Frequency: On occasion; annually.

Average Time per Response: 2 hours to complete forms based on the information required.

Estimated Total Burden Hours: 3,072,980.

Estimated Cost (Operation and Maintenance): \$0.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (FAX); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA-2007-0077). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA

cautions commenters about submitting personal information such as social security numbers and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted material) is not publicly available to read or download through this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available through the Web site, and for assistance in using the Internet to locate docket submissions.

V. Authority and Signature

Edwin G. Foulke, Jr., Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506, *et seq.*) and Secretary of Labor's Order No. 5-2007 (72 FR 31159).

Signed at Washington, DC, on October 18, 2007.

Edwin G. Foulke, Jr.,

Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510-26-P

LIBRARY OF CONGRESS

Copyright Office

[Docket No. 2007-10]

Cable Statutory License: Specialty Station List

AGENCY: Copyright Office, Library of Congress.

ACTION: Notice of final specialty station list.

SUMMARY: The Copyright Office is publishing a final list of stations listed in affidavits sent to the Copyright Office in which the owner or licensee of the station attests that the station qualifies as a specialty station in accordance with the Federal Communications Commission's (FCC) definition of specialty station in effect on June 24, 1981. The list shall be used to verify the specialty station status of those stations identified as such by cable systems on their semi-annual statements of account.

EFFECTIVE DATE: January 1, 2008

FOR FURTHER INFORMATION CONTACT:

Tanya M. Sandros, General Counsel,
Copyright GC/I&R, P.O. Box 70400,
Washington, DC 20024. Telephone:
(202) 707-8380. Telefax: (202) 252-
3423.

SUPPLEMENTARY INFORMATION: Under the cable statutory license, section 111 of title 17, United States Code, a cable operator may carry the signal of a television station classified as a specialty station at the base rate rather than at the higher 3.75% rate that is incurred for the carriage of a non-permitted signal. 37 CFR 256.2(c). Specialty station status is determined by reference to the former regulations of the Federal Communications Commission (FCC) which defined a specialty station as "a commercial television broadcast station that generally carries foreign-language, religious, and/or automated programming in one-third of the hours of an average broadcast week and one-third of the weekly prime-time hours." 47 CFR 76.5(kk) (1981). The FCC no longer determines whether a station qualifies as a specialty station; however, the Copyright Office updates the list periodically, because the list remains relevant to the cable statutory license scheme.

The Copyright Office published its first specialty station list in 1990 under a procedure which allowed the owner of the station to file an affidavit with the Office attesting to the fact that the station's programming comports with the 1981 FCC definition, and hence, qualifies it as a specialty station. 55 FR 40021 (October 1, 1990). The Office agreed at that time to periodically update the list.

Accordingly, on February 8, 2007, the Copyright Office published a notice asking the owner, or a valid agent of the owner, to file a sworn affidavit with the Copyright Office stating that the station's programming satisfies the FCC's former requirements for specialty station status. 72 FR 6008 (February 8, 2007).

On June 15, 2007, the Office published a notice listing the sixty-one broadcast stations for which the owner or licensee of the station had filed the requested affidavit. 72 FR 33251 (June 15, 2007). In the notice, the Office also requested that any party objecting to any claim to specialty station status submit comments to the Office stating his or her objections. No comments or objections were filed with the Office.

Since the publication of the initial list, the Office has received one additional affidavit, attesting to the specialty station status of the identified

station. Because this station was not listed in the earlier published list, the station has been identified with an asterisk (*) in the final list. Any interested party may file an objection to a newly listed station or to any other late-filed affidavit, and the objection shall be filed together with the corresponding affidavit. All affidavits and related comments or objections shall be kept on file in the Licensing Division of the Copyright Office.

The final list of specialty stations, published herein, shall be effective January 1, 2008, for the accounting period 2008/1 and thereafter. Copyright Office licensing examiners shall refer to the final annotated list in examining a statement of account where a cable system operator claims specialty station status for a particular station. If a cable system operator claims specialty station status for a station not on the published final list, the examiner determines whether the owner of the station has filed an affidavit since publication of the list.

BILLING CODE 1410-30-S

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978 (Pub. L. 95-541)

AGENCY: National Science Foundation.

ACTION: Notice of permit applications received under the Antarctic Conservation Act of 1978, Public Law 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 Part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by November 23, 2007. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT:

Nadene G. Kennedy at the above address or (703) 292-7405.

SUPPLEMENTARY INFORMATION: The National Science Foundation, as
