SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-96154; File No. SR-Phlx-2022-43]

Self-Regulatory Organizations; Nasdaq PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend Equity 4, Rule 3307 To Enhance the Anti-Internalization Functionality Available on the Exchange

October 25, 2022.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on October 21, 2022, Nasdaq PHLX LLC ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend Equity 4, Rule 3307, as described further below. The text of the proposed rule

change is available on the Exchange's website at <https://listingcenter.nasdaq.com/rulebook/phlx/rules>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to enhance the anti-internalization functionality available on the Exchange by giving market participants the flexibility to choose to have this protection apply to market participants under Common Ownership.³ Anti-internalization, also known as self-match prevention, is an optional feature available on the Exchange that (1) prevents two orders with the same Market Participant Identifier (MPID) from executing against each other, or (2) prevents two orders entered through a specific order entry port from executing against each other (in the case of market participants using the OUCH order entry protocol). The proposed rule change would permit market participants to direct that quotes/orders entered into the System not execute against quotes/orders entered across MPIDs that are under Common Ownership. The Exchange believes that this enhancement will provide helpful flexibility for market participants that wish to prevent trading against all quotes and orders entered by market participants under Common Ownership, instead of just quotes and orders that are entered under the same MPID or under a particular order entry port.

Currently, under Equity 4, Rule 3307, the Exchange provides optional anti-

³ The proposed rule change would define "Common Ownership" under Equity 4, Rule 3307 to mean participants under 75% common ownership or control.
