AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP) is codified as 42 U.S.C. 4001, *et sec.* and is authorized by Public Law 90–448 (1968) and expanded by Public Law 93–234 (1973). The National Flood Insurance Act of 1968 requires that the Federal Emergency Management Agency (FEMA) provides flood insurance at full actuarial rates with limited exceptions for certain structures reflecting the complete flood risk to structures built or substantially improved on or after the effective date for the initial Flood Insurance Rate Map (FIRM) for the community, or after December 31, 1974, whichever is later, so that the risk associated with buildings in flood-prone areas are borne by those located in such areas and not by the taxpayers at large. In accordance with Public Law 93–234,

the purchase of flood insurance is mandatory when Federal or federally related financial assistance is being provided for acquisition or construction of buildings located, or to be located, within FEMA-identified special flood hazard areas of communities that are participating in the NFIP. When flood damage occurs to insured property, information is collected to report, investigate, and negotiate in order to settle the claim.

The NFIP Appeals Process

Section 205 of The Bunning-Bereuter-Blumenauer Flood Insurance Reform Act (FIRA) of 2004, Public Law 108–264, requires FEMA to establish by regulation an additional process for the appeal of decisions of flood insurance claims issued through the NFIP. Consequently, FEMA published an interim final rule on May 26, 2006 (71 FR 30294) and a final rule on October 13, 2006 (71 FR 60435) codifying into regulation what was previously an existing informal process to handle appeals regarding decisions related to coverage, or claims under the NFIP.
