SUPPLEMENTARY INFORMATION:

A. Need For and Use of the Information Collection

Section 6 of the Federal Home Loan Bank Act (Bank Act) establishes the capital structure for the Federal Home Loan Banks (Banks) and requires FHFA to issue regulations prescribing uniform capital standards applicable to each Bank.¹ Parts 930, 931, 932, and 933 of title 12, Code of Federal Regulations implement the statutory capital structure for the Banks. Part 930 establishes definitions applicable to risk management and the capital regulations; part 931 concerns Bank capital stock; part 932 establishes Bank capital requirements; and part 933 sets forth the requirements for Bank capital structure plans. The provisions of part 931 provide that a Bank must require its members to maintain a minimum investment in the capital stock of the Bank as a condition to becoming and remaining a member of the Bank and as a condition to transacting business with the Bank or obtaining advances from the Bank. The amount of the required minimum investment is determined in

accordance with the Bank's capital plan under part 933.

The Banks use the information collection to determine the amount of capital stock a member must purchase to maintain membership in and to obtain services from a Bank. More specifically, the provisions of §§ 931.3 and 933.2(a) authorize a Bank to offer its members several options to satisfy a membership investment in capital stock and an activity-based stock purchase requirement. The information collection is necessary to provide the Banks with the flexibility to meet the statutory and regulatory capital structure requirements while allowing Bank members to choose the option best suited to their business requirements.

The OMB control number for the information collection is 2590-0002. The OMB clearance for the information collection expires on July 31, 2010. The likely respondents include Banks and Bank members.

B. Burden Estimate

While the number of member respondents has remained essentially the same, the overall burden on members of the Banks has decreased because of more accurate calculations. The estimate for the total annual hour burden for all member respondents is 3,023 hours. The estimate for the total annual cost burden for member respondents is \$123,943. These estimates are based on the following calculations:

FHFA estimates the total annual average number of activity-based stock purchase requirement for member respondents at 28,080 (108 daily borrowers x 260 working days, x 1 response per respondent). The estimate for the average hours per response is 0.05 hours. The estimate for the annual hour burden for activity-based stock purchase requirement member respondents is 1,404 hours (108 daily borrowers x 260 working days, x 1 response x 0.05 hours). The estimate for the annual cost burden for member respondents is \$57,564 (1,404 hours x \$41 hourly rate).

FHFA estimates the total annual average number of investment in capital stock membership maintenance respondents at 32,372 (8,093 with 4 responses per respondent). The estimate for the average hours per response is 0.05 hours. The estimate for the annual hour burden for membership maintenance investment in capital stock respondents is 1,619 hours (8,093 membership respondents x 4 responses per year x 0.05 hours per response). The estimate for the annual cost burden is \$66,379 (1,619 hours x \$41 hourly rate).

C. Comment Request

In accordance with the requirements of 5 CFR 1320.8(d), FHFA published a request for public comments regarding this information collection in the **Federal Register** on March 29, 2010. See 75 FR 15431 (Mar. 29, 2010). The 60-day comment period closed on May 28, 2010. No public comments were received.

FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of FHFA's estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION:

A. Need for and Use of the Information Collection

Section 4 of the Federal Home Loan Bank Act (Bank Act) establishes the eligibility requirements an institution must meet in order to become a member of a Federal Home Loan Bank (Bank).¹ The membership rule, which implements section 4 of the Bank Act,

provides uniform requirements an applicant for Bank membership must meet and review criteria a Bank must apply to determine if an applicant satisfies the statutory and regulatory membership eligibility requirements.²

More specifically, the membership rule implements the statutory eligibility requirements and provides guidance on how an applicant may satisfy such requirements. The Banks, and where appropriate, FHFA, use the information collection to determine: (i) If an institution satisfies the statutory and regulatory membership requirements; (ii) a member's initial capital stock purchase in a Bank; (iii) member withdrawals; and (iv) where a member transfers to a different Bank district. The rule authorizes a Bank to approve or deny each membership application subject to the statutory and regulatory requirements, and permits an applicant to appeal to FHFA a Bank's decision to deny certification as a Bank member. The rule also imposes a continuing obligation on a current Bank member to provide information necessary to determine if it remains in compliance with applicable statutory and regulatory eligibility requirements.

The provisions governing this information collection are found in §§ 1263.2 through 1263.31 of the membership rule, 12 CFR 1263.2—1263.31. The information collection is necessary to enable a Bank to determine whether prospective and current Bank members satisfy the statutory and regulatory requirements to be certified initially and maintain their status as members eligible to obtain Bank advances. FHFA requires and uses the information collection to determine whether to uphold or overrule a Bank's decision to deny member certification to an applicant.

The OMB control number for the information collection is 2590-0003, which is due to expire on July 31, 2010. The likely respondents are institutions that want to be certified as or are members of a Bank seeking continued certification.

B. Burden Estimate

FHFA has analyzed the cost and hour burden for the four facets of the information collection: (1) Membership Application Process, (2) Minimum initial capital stock calculation for applicants, (3) Membership withdrawals, and (4) Transfer of membership to another Bank district. The estimate for the total annual hour burden for all respondents is 5,564

hours. The estimate for the total annual cost burden is \$535,549. These estimates are based on the following calculations:

Membership Application and Appeal Process

FHFA estimates the total annual average number of member applicants at 283, with 1 response per applicant. Of those 283 applicants, FHFA estimates that 1 applicant will appeal a Bank's membership determination to FHFA. The estimate for the average hours per application is 19.25 hours. The estimate for the average hours per appeal is 10 hours. The estimate for the total annual hour burden to applicants for the membership application and appeal process is 5,458 hours (283 applicants x 1 response per applicant x 19.25 hours per response + 1 appellant x 1 appeal x 10 hours). The estimate for the total annual cost burden to applicants for the membership application and appeal process is \$521,136.

Initial Capital Stock Calculation for Applicants

FHFA estimates the total annual average number of applicant initial capital stock subscription calculations at 283, with 1 response per applicant. The estimate for the average hours per application is 0.25 hours. The estimate for the annual hour burden for applicants' initial capital stock subscription calculations is 71 hours (283 applicants x 1 response per applicant x 0.25 hours per response). The estimate for the total annual cost burden to applicants of initial capital stock calculation is \$9,727.

Membership Withdrawals

FHFA estimates the total annual average number of membership withdrawals at 8, with 1 response per withdrawing member. The estimate for the average hours per member withdrawal is 3.5 hours. The estimate for the annual hour burden for membership withdrawals is 28 hours (8 membership withdrawals x 1 response per member x 3.5 hours per response). The estimate for the total annual cost burden to members for withdrawals from membership is \$3,836.

Transfers of Membership to Another Bank District

FHFA estimates the total annual average number of transfers of membership at 2, with 1 response per transferring member. The estimate for the average hours per member transfer is 3.5 hours. The estimate for the annual hour burden for membership transfers is 7 hours (2 membership transfers x 1

¹ 12 U.S.C. 1424.

² 12 CFR part 1263 (former part 925). See 75 FR 678, 690 (Jan. 5, 2010).

response per member x 3.5 hours per response). The estimate for the total annual cost burden to member respondents of the transfer of membership process is \$850.

C. Comment Request

In accordance with the requirements of 5 CFR 1320.8(d), FHFA published a request for public comments regarding this information collection in the **Federal Register** on March 29, 2010. See 75 FR 15431 (Mar. 29, 2010). The 60-day comment period closed on May 28, 2010. FHFA received one public comment from a consumer that referred to another proposed collection of information that was not related to this collection.

FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of FHFA's estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
