

spirodiclofen registrations (EPA Registration Nos. 264–830 and 264–831) as requested by the registrant, effective December 31, 2021. The Agency is now amending the effective date of cancellation to June 30, 2022.

FOR FURTHER INFORMATION CONTACT: Veronica Dutch, Pesticide Re-evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW, Washington, DC 20460–0001; telephone number: (202) 566–2352; email address: dutch.veronica@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA–HQ–OPP–2017–0466, is available at <https://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC 20460–0001.

Due to the public health emergency, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions. The staff continues to provide remote customer service via email, phone, and webform. For the latest status information on EPA/DC services and docket access, visit <https://www.epa.gov/dockets>.

II. What action is the Agency taking?

This notice is being issued to amend the effective date for cancellation of the two spirodiclofen registrations (now EPA Registration Nos. 10163–382 and 10163–383) as published in the **Federal Register** on December 21, 2020 (85 FR 83078) (FRL 10017–47). The transfer of these spirodiclofen products to Gowan became effective on March 18, 2021. Gowan committed to develop required data with the intention of maintaining these spirodiclofen registrations in a letter dated October 8, 2020. With this

notice, EPA is hereby amending the effective date for cancellation of EPA Registration Nos. 10163–382 and 10163–383 to June 30, 2022. Although Gowan submitted data and waiver requests to EPA as they had committed to do, EPA recently completed draft ecological and human health risk assessments as part of registration review which identified potential cancer dietary (water and food) risks of concern, along with potential ecological risks of concern for certain taxa, including mammals and honeybees. Changes to the spirodiclofen labels are necessary to adequately mitigate those risks. EPA is extending the effective date of cancellation to further consider Gowan's request to rescind the cancellation order. Consistent with the previous cancellation order, the registrant would be prohibited from producing, selling, or distributing existing stocks of products containing spirodiclofen following the cancellation effective date. Other entities would be permitted to sell, distribute, and use stocks of spirodiclofen until stocks are exhausted. The cancellation of these two registrations would terminate the last spirodiclofen products registered for use in the United States.

Authority: 7 U.S.C. 136 *et seq.*

Dated: November 15, 2021.

Mary Reaves,

Director, Pesticide Re-Evaluation Division, Office of Pesticide Programs.

ENVIRONMENTAL PROTECTION AGENCY

[CERCLA–04–2021–2504; FRL–9143–01–R4]

Horton Iron and Metal Superfund Site, Wilmington, North Carolina, Proposed Settlement

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed settlement.

SUMMARY: Under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), the United States Environmental Protection Agency is proposing to enter into a settlement with W.R. Grace & Co. Conn concerning the Horton Iron and Metal Superfund Site located in Wilmington, North Carolina. The proposed settlement addresses recovery of CERCLA costs for a cleanup that will be performed at the Site and costs incurred by EPA.

DATES: The Agency will consider public comments on the proposed settlement until December 20, 2021. The Agency

will consider all comments received and may modify or withdraw its consent to the proposed settlement if comments received disclose facts or considerations which indicate that the proposed settlement is inappropriate, improper, or inadequate.

ADDRESSES: Copies of the proposed settlement are available from the Agency by contacting Ms. Paula V. Painter, Program Analyst, using the contact information provided in this notice. Comments may also be submitted by referencing the Site's name through one of the following methods:

Internet: <https://www.epa.gov/aboutepa/about-epa-region-4-southeast#r4-public-notices>

Email: Painter.Paula@epa.gov

FOR FURTHER INFORMATION CONTACT: Paula V. Painter at 404 562–8887.

Maurice Horsey,

Chief, Enforcement Branch, Superfund & Emergency Management Division.
