Any questions regarding this application should be directed to Tiffany Werts, Regulatory and Certificates Analyst, Dominion Transmission, Inc., 701 East Cary Street, Richmond, VA 23219, telephone: (866) 319-3382.

To accommodate the new service entitlements for a customer, Keys Energy Center (Keys Energy), Dominion proposes to install one new 6,000 horsepower (hp) electric compressor and related facilities at its existing Pleasant Valley Compressor Station located in Fairfax County, Virginia. Dominion also proposes to construct a new metering and regulating station and appurtenant facilities in Charles County, Maryland. The Keys Energy Project will provide 107,000 dekatherms per day of incremental firm transportation service to Keys Energy. Dominion has executed a precedent agreement with Keys Energy for all of the capacity associated with the project for a primary term of twenty years. Dominion requests authorization to establish an initial recourse rate for firm service using the proposed project. The cost of the proposed project is \$36,615,014. Dominion proposes an in-service date of March 1, 2017.

Pursuant to Section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project

should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 5 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Motions to intervene, protests and comments may be filed electronically via the internet in lieu of paper; see, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The

Commission strongly encourages electronic filings.

Federal Energy Regulatory Commission

[Docket No. EL15-27-000]

Delaware Division of the Public Advocate, Delaware Municipal Electric Corporation, Inc., Delaware Public Service Commission, Maryland Office of People's Counsel, Maryland Public Service Commission, New Jersey Board of Public Utilities, New Jersey Division of Rate Counsel, Office of the People's Counsel of the District of Columbia, Public Service Commission of the District of Columbia v. Baltimore Gas and Electric Company, Pepco Holdings, Inc., Operating Affiliates: Potomac Electric Power Company, Delmarva Power & Light Company, Atlantic City Electric Company; Notice of Complaint

December 9, 2014.

Take notice that on December 8, 2014, pursuant to Rule 206 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and

Procedure, 18 CFR 385.206, the Delaware Division of the Public Advocate, Delaware Municipal Electric Corporation, Inc., Delaware Public Service Commission, Maryland Office of People's Counsel, Maryland Public Service Commission, New Jersey Board of Public Utilities, New Jersey Division of Rate Counsel, Office of the People's Counsel of the District of Columbia, and Public Service Commission of the District of Columbia (collectively, Joint Complainants) filed a formal complaint against Baltimore Gas and Electric Company and the Pepco Holdings, Inc. affiliates: Potomac Electric Power Company, Delmarva Power & Light Company, and Atlantic City Electric Company (collectively, Respondents) alleging that the existing Base Return on Equity used in Respondent's formula transmission rates is unjust and unreasonable, as more fully explained in the complaint.

The Joint Complainants certifies that copies of the complaint were served on the contacts for the Respondents and PJM Interconnection, L.L.C.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s).
