

Advisory Board on July 23–24, 2001. For the purposes of that meeting, OAQPS staff has reviewed comments on these documents submitted by July 12, 2001. OAQPS staff will now prepare a revised draft Staff Paper, taking into account CASAC comments and public comments received by September 28, 2001, as well as any revisions made to the draft Criteria Document in light of CASAC and public comments on that document. The revised draft Staff Paper will then be made available for review and comment by CASAC and the public.

In conjunction with preparation of a revised draft Staff Paper, OAQPS staff will also prepare a more detailed technical methodological report on the risk analysis for PM, taking into account CASAC and public comments on the draft Scoping Plan. The technical methodological report will also be made available for public and CASAC comment prior to the preparation of a risk assessment, the results of which will be included in the revised draft Staff Paper. Thus, parties interested in providing further comments on the PM risk assessment methodology can do so in conjunction with review of the more detailed technical methodological report that is targeted for release this Fall.

Dated: July 25, 2001.

Henry C. Thomas,

Acting Director, Office of Air Quality Planning and Standards.

Proposed CERCLA Administrative Cost Recovery Settlement; In Re: Kogut's Nursery Superfund Site, Suffield, CT

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: In accordance with section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(i), notice is hereby given of a proposed administrative settlement for recovery of past response costs concerning the Kogut's Nursery Superfund Site in Suffield, Connecticut, with the following settling party: Kogut Enterprises, Inc. The settlement requires the settling party to pay \$165,000 to the Hazardous Substance Superfund. The

settlement includes a covenant not to sue the settling party pursuant to section 107(a) of CERCLA, 42 U.S.C. 9607(a). For thirty (30) days following the date of publication of this notice, the Agency will receive written comments relating to the settlement. The Agency will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate. The Agency's response to any comments received will be available for public inspection with the Regional Docket Clerk, U.S. Environmental Protection Agency, Region I, One Congress Street, Suite 1100, Mailcode RCG, Boston, Massachusetts (U.S. EPA Docket No. CERCLA 01–2001–0055).

DATES: Comments must be submitted on or before September 5, 2001.

ADDRESSES: The proposed settlement is available for public inspection with the Regional Docket Clerk, One Congress Street, Boston, Massachusetts. A copy of the proposed settlement may be obtained from Ronald Gonzalez, U.S. Environmental Protection Agency, Region I, One Congress Street, Suite 1100, Mailcode SES, Boston, Massachusetts 02214, (617) 918–1786. Comments should reference the Kogut's Nursery Superfund Site, Suffield, Connecticut and EPA Docket No. 01–2001–0055 and should be addressed to the Docket Clerk, U.S. Environmental Protection Agency, Region I, One Congress Street, Suite 1100, Mailcode RCG, Boston, Massachusetts 02214.

FOR FURTHER INFORMATION CONTACT: Ronald Gonzalez, U.S. Environmental Protection Agency, Region I, One Congress Street, Suite 1100, Mailcode SES, Boston, Massachusetts 02214, (617) 918–1786.

Dated: July 16, 2001.

Larry Brill,

Acting Director, Office of Site Remediation and Restoration.

Sole Source Aquifer Determination for the Castle Valley Aquifer System, Castle Valley, UT

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final determination.

SUMMARY: Pursuant to section 1424(e) of the Safe Drinking Water Act, the Regional Administrator of the U.S. Environmental Protection Agency (EPA) in Region VIII has determined that the Castle Valley Aquifer System, at Castle Valley, Utah and the immediately adjacent recharge area is the sole or principal source of drinking water for the region. The Castle Valley Aquifer System consists of undifferentiated Quaternary valley-fill deposits and the underlying Cutler Formation. The aquifer is located in southeastern Utah extending from the Town of Castle Valley, Utah southeast to the La Sal Mountains and northwest to the Colorado River encompassing approximately 24,000 acres in parts of Township 24 South, Ranges 22, 23, and 24 East and parts of Township 25 South, Ranges 22, 23, and 24 East SLB&M. The area is irregularly shaped with maximum dimensions of about 16 miles from southeast to northwest and approximately 3 miles from northeast to southwest. The entire area is within Grand County, Utah. No reasonable alternative sources of drinking water with sufficient supply exist to meet the needs of this area because of the complexity and limitations of water rights in southeastern Utah. A significant hazard to public health would occur if this aquifer becomes contaminated.

The boundaries of the designated area have been reviewed and approved by EPA. As a result of this action, federal financially assisted projects constructed in the approximately 50 square mile area mentioned above will be subject to EPA review to ensure that these projects are designed and constructed in a manner which does not create a significant hazard to public health. For the purposes of this designation the Aquifer Service Area and the Project Review Area are the same as the Designated Area.

DATES: This determination shall be promulgated for purposes of judicial review at 1:00 p.m. Mountain Standard Time on August 6, 2001.

ADDRESSES: The data upon which these findings are based, and a map of the designated area are available to the public and may be inspected during normal business hours at the U.S. Environmental Protection Agency, Region VIII, 999 18th Street, Suite 300, Denver, CO 80202–2466.

FOR FURTHER INFORMATION CONTACT: William J. Monheiser, Regional Sole Source Aquifer Coordinator, Ground Water Program, 8P–W–GW, USEPA Region VIII, 999 18th Street, Suite 300, Denver, Colorado 80202–2466, Phone:
