Title: EPA's National Partnership for Environmental Priorities (Renewal).

ICR numbers: EPA ICR No. 2076.03, OMB Control No. 2050-0190.

ICR Status: This ICR is scheduled to expire on May 31, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other

appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: EPA has established a national program, called the National Partnership for Environmental Priorities (NPEP), to encourage improved chemical management through source reduction, use of environmentally preferable alternatives, and recycling. An organization's decision to participate in the program is completely voluntary. The primary purpose of the program is to serve as a "clearing house" of information on the availability of technical assistance, project ideas, and production-related success stories. By distributing this information, EPA hopes to stimulate additional chemical management activities and to present innovative technologies and production success stories to prospective partners. EPA uses three forms to collect information from partners. These forms can be prepared and submitted by hard copy or electronically.

Burden Statement: The annual burden for the enrollment form is estimated to average 22 hours per response; the annual burden for the Champion Enrollment form is estimated to average 22 hours per response; the annual burden for the success stories is expected to average 10 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Business or other for-profit.

Estimated Number of Respondents: 423.

Frequency of Response: On occasion.
Estimated Total Annual Hour Burden: 2,358.

Estimated Total Annual Cost: \$185,598. This includes an estimated \$0 capital investment and \$88 operation and maintenance costs.

Changes in the Estimates: There is an increase of 1,716 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This is due to the increase in program enrollment, as well as the addition of the Champions Form.

Dated: May 14, 2009.

John Moses,

Director, Collection Strategies Division.
