

EVOSTC Habitat Acquisition Program. Lands being considered are near Thompson Pass in the vicinity of Valdez, Alaska, and are not identified as available for exchange under the current East Alaska RMP. The proposed amendment to the RMP would analyze making additional lands near Thompson Pass available for potential exchanges in accordance with the Dingell Act. At present, the BLM has identified the following preliminary issues for evaluation in the RMP Amendment/EA: Recreational activities, social and economic impacts, rural and traditional lifestyles, subsistence use and access, public access, wildlife and biological resources, special status species, fish and aquatic species, water, wilderness characteristics, cultural resources and reasonably foreseeable future activities.

The BLM will utilize and coordinate the NEPA scoping process to help fulfill the public involvement process under the National Historic Preservation Act (NHPA), as amended, and as provided in 36 CFR 800.2(d)(3). The information about historic and cultural resources within the area potentially affected by the proposed action will assist the BLM in identifying and evaluating impacts to such resources.

The BLM will offer consultation to potentially affected Federally recognized tribes on a government-to-government basis, and with affected Alaska Native corporations, in accordance with Executive Order 13175 and other policies. Native concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given appropriate consideration. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed RMP Amendment/EA, are invited to participate in the scoping process and, if eligible, may request or be asked by the BLM to participate in the development of the RMP Amendment/EA as cooperating agencies.

U.S. International Trade Commission  
(Commission) has submitted a proposal  
for the collection of information to the  
Office of Management and Budget  
(OMB) for approval. The proposed  
information collection is a three-year  
extension of the current generic  
clearance (approved by OMB under

the Commission can issue information  
collections for the collection of  
qualitative feedback on agency service  
delivery. Any comments submitted to  
OMB on the proposed information  
collection should be specific, indicating  
which part of the information collection  
plan is objectionable, describing the  
issue in detail, and including specific  
revisions or language changes. The

Commission did not receive any  
comments in response to the 60-day  
notice that it published in the **Federal

## SUPPLEMENTARY INFORMATION:

### (1) Need for the Proposed Information Collections

The proposed information collection  
activity provides a means to garner  
qualitative customer and stakeholder  
feedback in an efficient, timely manner.  
This qualitative feedback provides  
useful insights on perceptions and  
opinions of customers and stakeholders.  
The feedback helps the Commission  
gain understanding into customer or  
stakeholder experiences and  
expectations and provides an early  
warning of issues with service, or focus  
attention on areas where  
communication, training or changes in  
operations might improve delivery of  
products or services. These collections  
allow for ongoing, collaborative and  
actionable communications between the  
Commission and its customers and  
stakeholders and contribute directly to  
the improvement of program  
management.

### (2) Description of the Information To Be Collected

The solicitation of feedback will target  
areas such as: Timeliness,  
appropriateness, accuracy of  
information, courtesy, efficiency of  
service delivery, and resolution of  
issues with service delivery. Responses  
will be assessed to plan and inform  
efforts to improve or maintain the  
quality of service offered to the public.
