

confidentiality with this collection of information.

Needs and Uses: On September 28, 2012, the Federal Communications Commission ("Commission") released a Report and Order (R&O) titled, "In the Matter of 2006 Biennial Regulatory Review—Revision of Part 25," FCC 12–116. With two exceptions, the amendments are non-substantive; that is, they neither impose new requirements nor eliminate or alter existing requirements. The two substantive amendments adopted in the R&O do not increase paperwork burdens. Therefore, the number of respondents, number of responses, annual burden hours and annual costs have not been amended from the previous submission to the Office of Management and Budget (OMB) on September 2, 2010.

In this Report and Order, the Commission amended various provisions of Part 25 of its rules pertaining to licensing and operation of satellite service radio stations. Among other things, the Commission added definitions for several technical terms that appear in Part 25 but are not defined there, and it deleted definitions of terms that are not used in Part 25. The Commission also eliminated redundant text from several rule sections, revised the wording of other provisions that were ambiguous or unduly confusing, updated cross-references to Commission rules or recommendations of the International Telecommunication Union (ITU), and corrected grammatical, spelling, and typographical errors. The two substantive amendments the Commission adopted in this Report and Order amended the rules in minor ways by: (1) Eliminating requirements to identify a radio service and station location in correspondence in 47 CFR 25.110 and (2) codifying an established practice of allowing applicants to cross-reference, rather than re-submit, previously filed information regarding non-U.S.-licensed satellites in 47 CFR 25.137. Collectively, the changes adopted in this Report and Order will facilitate preparation of earth and space station applications, promote compliance with the Commission's operating rules, and ease administrative burdens for applicants, licensees, and the Commission. The information collection requirements accounted for in this collection are necessary to determine the technical and legal qualifications of applicants or licensees to operate a station and to determine whether the authorization is in the public interest, convenience and necessity. Without such information,

the Commission could not determine whether to permit respondents to provide telecommunications services in the United States. Therefore, the Commission would not be able to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended, and the obligations imposed on parties to the World Trade Organization (WTO) Basic Telecom Agreement.

OMB Control Number: 3060–0692.

Type of Review: Extension of a currently approved collection.

Title: Sections 76.802 and 76.804, Home Wiring Provisions; Section 76.613, Interference from a Multi-channel Video Programming Distributor (MVPD).

Form Number: N/A.

Respondents: Individuals or households; Business or other for-profit entities.

Number of Respondents: 22,000.

Estimated Time per Response: 0.083–2 hours.

Frequency of Response: On occasion reporting requirement; Recordkeeping requirement; Annual reporting requirement; Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in Sections 1, 4, 224, 251, 303, 601, 623, 624 and 632 of the Communications Act of 1934, as amended.

Total Annual Burden: 36,114 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: In the Cable Television Consumer Protection and Competition Act of 1992, Congress directed the FCC to adopt rules governing the disposition of home wiring owned by a cable operator when a subscriber terminates service. The rules at 76.800 et seq., implement that directive. The intention of the rules is to clarify the status and provide for the disposition of existing cable operator-owned wiring in single family homes *58991 and multiple dwelling units upon the termination of a contract for cable service by the home owner or MDU owner. Section 76.613(d) requires that when Multichannel Video Programming Distributors (MVPDs) cause harmful signal interference MVPDs may be required by the District Director and/or Resident Agent to prepare and submit a report regarding the cause(s) of the interference, corrective measures planned or taken,

and the efficacy of the remedial measures.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
