

schedule I was effective on April 15, 2024, thirty days after the publication of the final order.¹ During the 30-day period between the publication of the final order and effective date, DEA issued another final order scheduling three nitazene substances—etodesnitazene, N-pyrrolidino etonitazene, and protonitazene—into schedule I as of the date of the publication of the final order.² The publication of the three nitazene substances final order and the effective date of that final order predated the effective date of the 2-methyl AP-237 final order. Consequently, the amended paragraphs in 21 CFR part 1308 regarding 2-methyl AP-237 were

incorrect. Nonetheless, the final order correctly placed 2-methyl AP-237 under 21 CFR 1308.11(b). Therefore, the placement of 2-methyl AP-237 under schedule I has been effective as of April 15, 2024, despite the technical errors in the paragraph of 21 CFR part 1308 in the final order.³

List of Subjects in 21 CFR Part 1308

Administrative practice and procedure, Drug traffic control, Reporting and recordkeeping requirements.

For the reasons set out above, DEA corrects 21 CFR part 1308 with the following correcting amendment:

■ a. Redesignate paragraphs (b)(62) through (109) as paragraphs (b)(63) through (110); and

Electronic Access and Filing

This document may be viewed online through the Federal eRulemaking portal at www.regulations.gov using the docket number listed above. The website is available 24 hours each day, 365 days each year. An electronic copy of this document may also be downloaded by accessing the Office of the Federal Register’s website at: www.federalregister.gov.

Background

FHWA had initiated a rulemaking titled “Statewide and Nonmetropolitan Planning; Metropolitan Transportation Planning,” under Regulation Identifier Number (RIN) 2125-AF98, to update the regulations pertaining to FHWA’s transportation planning requirements in title 23, Code of Federal Regulations, part 450. This rulemaking project was listed on FHWA’s Unified Agenda, however no notice of proposed rulemaking was published in the **Federal Register**.

Consistent with President Trump’s commitment to ending unlawful, unnecessary, and onerous regulations, FHWA is reviewing its existing regulations and ongoing regulatory activities for alignment with law and Administration priorities. FHWA is withdrawing this rulemaking activity

¹ Schedules of Controlled Substances: Placement of 2-Methyl AP-237 in Schedule I, 89 FR 18793 (Mar. 15, 2024).

² Schedules of Controlled Substances: Placement of Etodesnitazene, N-Pyrrolidino Etonitazene, and Protonitazene in Schedule I, 89 FR 25514 (Apr. 11, 2024).

because further rulemaking action does not align with Agency needs, priorities, and objectives. FHWA continues to consider the best means of addressing some or all of the issues surrounding its transportation planning regulations and the scope of any Agency actions FHWA concludes may be necessary to address these issues.

In addition, all Agencies participate in the semi-annual Unified Agenda, which provides a summary description of the rulemaking actions that each Agency is considering or reviewing. Agencies' agendas are posted on the public website of the Office of Information and Regulatory Affairs, and portions are published in the **Federal Register** in the spring and fall of each year. The Unified Agenda is often used as a tool to solicit interest and participation from stakeholders. Termination of this rulemaking will allow FHWA to better align its entries on the Department's Unified Agenda with the Agency's needs, priorities, and objectives.

Accordingly, for these independently sufficient reasons, FHWA is terminating the rulemaking associated with RIN 2125–AF98. By terminating the rulemaking, FHWA is indicating that it no longer considers this rulemaking to be pending. Should the FHWA decide at a future date to initiate the same or similar rulemaking, FHWA will initiate a new rulemaking under a new RIN, consistent with the requirements of the Administrative Procedure Act, title 5, United States Code, 553.

Gloria M. Shepherd,
Executive Director, Federal Highway Administration.
