

The regulation at 7 CFR 6.33(a) also provides that the Licensing Authority will announce the annual fee for each license and that such fee will be set out in a notice to be published in the **Federal Register**. Accordingly, this notice sets out the fee for the licenses to be issued for the 2024 calendar year.

The total cost to the Department of Agriculture of administering the licensing system for 2024 has been estimated to be \$936,025.00 and the estimated number of licenses expected to be issued is 2,674. Of the total cost, \$503,619.00 represents staff and supervisory costs directly related to administering the licensing system, and \$432,406.00 represents other miscellaneous costs, including travel, publications, forms, and Automatic Data Processing (ADP) system support.

Accordingly, notice is hereby given that the fee for each license issued to a person or firm for the 2024 calendar year, in accordance with 7 CFR 6.33, will be \$350 per license.

Aileen Mannix,

Acting Licensing Authority, Foreign Agricultural Service.

BILLING CODE 3410-10-P

DEPARTMENT OF AGRICULTURE

Foreign Agricultural Service

Adjustment of Appendices Under the Dairy Tariff-Rate Quota Import Licensing Regulation

AGENCY: Foreign Agricultural Service, USDA.

ACTION: Notice.

SUMMARY: This notice announces the transfer of amounts for certain dairy articles from the historical license category (Appendix 1) to the lottery (nonhistorical) license category (Appendix 2) pursuant to the Dairy Tariff-Rate Quota Import Licensing regulations for the 2023 quota year.

DATES: August 31, 2023.

FOR FURTHER INFORMATION CONTACT:

Elizabeth Riley, (202) 720-6868,

Elizabeth.riley@usda.gov.

SUPPLEMENTARY INFORMATION: The Foreign Agricultural Service, under a delegation of authority from the Under Secretary for Trade and Foreign Agricultural Affairs, administers the Dairy Tariff-Rate Import Quota Licensing Regulation codified at 7 CFR 6.20-6.36 that provides for the issuance of licenses to import certain dairy articles under tariff-rate quotas (TRQs) as set forth in the Harmonized Tariff Schedule (HTS) of the United States. These dairy articles may only be entered into the United States at the low-tier

tariff by or for the account of a person or firm to whom such licenses have been issued and only in accordance with the terms and conditions of the regulation.

Licenses are issued on a calendar year basis, and each license authorizes the license holder to import a specified quantity and type of dairy article from a specified country of origin. The Imports Program, Foreign Agricultural Service, U.S. Department of Agriculture, issues these licenses and, in conjunction with U.S. Customs and Border Protection, U.S. Department of Homeland Security, monitors their use.

The regulation at 7 CFR 6.34(a) states that whenever a historical license (Appendix 1) is permanently surrendered, revoked by the Licensing Authority, or not issued to an applicant pursuant to the provisions of § 6.23, then the amount of such license will be transferred to Appendix 2. Section 6.34(b) provides that the cumulative annual transfers will be published by notice in the **Federal Register**. Accordingly, this document sets forth the revised Appendices in the table below. Although there are no changes to the quantities for designated licenses (Appendix 3 and Appendix 4), those numbers are also included in the table below for completeness.

Aileen Mannix,

Acting Licensing Authority, Foreign Agricultural Service.

DEPARTMENT OF AGRICULTURE

National Institute of Food and Agriculture

Notice of Intent To Extend and Revise a Currently Approved Information Collection

AGENCY: National Institute of Food and Agriculture, U.S. Department of Agriculture (USDA).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and Office of Management and Budget (OMB) regulations, this notice announces the National Institute of Food and Agriculture's (NIFA) intention to extend and revise a currently approved information collection entitled, "Reporting Requirements for State Plans of Work for Agricultural Research and Extension Formula Funds." NIFA is proposing to change the collection title to "NIFA Reporting System (NRS)", include a new financial reporting module, modify existing reports in order to request digital persistent identifiers, and allow respondents to provide information on Co-Project Director(s) when applicable.

DATES: Written comments on this notice must be received by October 30, 2023 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: You may submit comments through the Federal eRulemaking Portal: www.regulations.gov. Follow the instructions for submitting comments.

Instructions: All comments received will be posted without change to www.regulations.gov, including any personal information provided.

FOR FURTHER INFORMATION CONTACT: Laura Givens, 816-527-5379, Laura.Givens@usda.gov.

SUPPLEMENTARY INFORMATION:

Title of Collection: NIFA Reporting System (NRS).

OMB Control Number: 0524-0036.

Expiration Date of Current Approval: 10/31/2025.

Type of Request: Notice of intent to extend and revise a currently approved information collection.

Abstract: The "NIFA Reporting System" (NRS), provides data management and reporting for capacity funded research projects and extension programs. NRS currently contains the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) (7 U.S.C. 7601 *et seq.*) Plans of Work, Annual Reports of Accomplishments, and other capacity grant data for research projects and extension programs. The programs are authorized pursuant to the authorities contained in the McIntire-Stennis Cooperative Forestry Act of 1962 (16 U.S.C. 582a *et seq.*), the Hatch Act of 1887 and the Hatch Multistate Research Fund (7 U.S.C. 361a and 361c), the Agricultural Extension at 1890 Land-Grant Institutions (7 U.S.C. 3221), Agricultural research at 1890 land-grant colleges (7 U.S.C. 3222), Animal Health and Disease Research (7 U.S.C. 3195), Renewable Resources Extension Act of 1978 (16 U.S.C. 1674), District of Columbia Public Post-secondary Education Reorganization Act (DC ST Section 38-1202.09), and the Smith-Lever Act (7 U.S.C. 341).

NIFA proposes to add a new financial module within NRS comprised of two separate forms: the Financial Report form and the Office of Grants and Financial Management (OGFM) supplemental information form.

The Financial Report form will capture expenditures for individual research projects and extension programs and will allow for both individual and bulk data entry options. This reporting would include NIFA, other federal, state, and other funding expenditures and Full Time Equivalents (FTE) supporting the project/program during the fiscal year of reporting.

The OGFM Supplemental Information Form will collect information on

required target percentages for integrated and extension programs required to submit this information as part of AREERA reporting requirements. NIFA plans to prepopulate some of the fields in the form so that the response will be limited to total expenditures of three types (Hatch (Regular and Multistate) integrated, Smith-Lever multistate, and Smith-Lever extension activities), any carryover used, and information for a waiver (if applicable).

NIFA also proposes to modify the Project/Program Initiation report to include a new optional field for Co-Project Directors.

Finally, NIFA also seeks to modify the Project/Program Results report to include a new field for digital persistent identifiers associated with products resulting from capacity funded research projects and extension programs.

Total Estimate of the Burden: The estimated annual reporting burden for the NRS collection is as follows:

I. Plan of Work

The total annual estimated burden for this information collection is 4,800 hours. This includes the time needed for participant education; data entry, aggregation, and reporting; and preparation, review, and submission of program plans and budgetary information. There are four components of the Plan of Work: Executive Summary, Merit and Scientific Peer Review Processes, Stakeholder Input, and Critical Issues.

Estimate of Burden:

Estimated Number of Respondents: 75 per year.

Estimated Number of Responses per Respondent: 1.

Estimated Burden per Response: 64 hours.

Estimated Total Annual Burden on Respondents: 4,800 hours.

Frequency of Responses: Annually.

II. Annual Report of Accomplishments and Results

The total annual estimated burden for this information collection is 4,800 hours. This includes the time needed for participant education; data entry,
