

wipers, defrosters and demisters and their parts; microwave ovens; water heaters, ovens, stoves and ranges; electric sound amplifier sets and their parts; sound turntables; sound reproducing apparatus; television receivers; antennas and antenna reflectors; reception apparatus parts; burglar and fire alarms; circuit breakers; relays; optical fiber cables; electrical switches; lamp holders; electrical consoles; sealed-beam electrical lamps; halogen lamps; electrical discharge lamps and their parts; insulated wire cable with connectors; diesel-powered motor vehicle chassis not exceeding 5 metric tons; diesel-powered motor vehicle chassis exceeding 5 metric tons up to 20 metric tons; diesel-powered motor vehicle chassis exceeding 20 metric tons; spark-ignition internal combustion engine-powered motor vehicle chassis not exceeding 5 metric tons; spark-ignition internal combustion engine-powered motor vehicles exceeding 5 metric tons; road wheels and parts; trailers, semi-trailers and their parts; optical appliances and instruments; hydrometers, thermometers, pyrometers, barometers, hygrometers, psychrometers and their parts; gas or smoke analysis apparatus; speedometers, tachometers and stroboscopes; engine-testing equipment; voltage regulators and their parts; rubber or plastic mattresses; and, mattress supports. The duty rates on the imported components range from duty-free to 25 percent.

This application requests authority for Thor to conduct the manufacturing activity under FTZ procedures, which could exempt the company from customs duty payments on the imported components used in export production. Up to 5 percent of production could be exported. On domestic sales, the company could defer duty payment and choose the lower duty rate (duty-free to 5.7 percent) that applies to the finished products for the imported components used in manufacturing. Thor may also realize savings related to direct delivery and weekly customs entry procedures. The company would also realize savings on the elimination of duties on materials that become scrap/waste during manufacturing. The application indicates that the FTZ-related savings would improve the plant's international cost competitiveness.

In accordance with the Board's regulations, Christopher Kemp of the FTZ staff is designated examiner to investigate the application and report to the Board.

[Docket 65-2008]

Foreign-Trade Zone 207—Richmond, Virginia; Application for Subzone; Qimonda North America Corporation; (Dynamic Random Access Memory Modules Distribution); Sandston, VA

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Capital Region Airport Commission, grantee of FTZ 207, requesting special-purpose subzone status for the warehousing and distribution facility of Qimonda North America Corporation (Qimonda), located in Sandston, Virginia. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on December 2, 2008.

The Qimonda facility (10 employees, 210 acres, 1,435,278 square feet) is located at 6000 Technology Boulevard, Sandston, Virginia. The facility is used for the storage and distribution of dynamic random access memory modules (duty-free).

FTZ designation would allow Qimonda to realize logistical benefits through the use of weekly customs entry procedures. The request indicates that the savings from FTZ procedures would

help improve the facility's international competitiveness.

In accordance with the Board's regulations, Elizabeth Whiteman of the FTZ Staff is designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below.
