Stitches Manufacturing, Inc., Huntington Valley, PA; Termination of Investigation

Pursuant to section 221 of the Trade Act of 1974, as amended, an investigation was initiated on February 12, 2004, in response to a worker petition filed by a company official on behalf of workers of Stitches Manufacturing, Inc., Huntington Valley, Pennsylvania.

The investigation revealed that the subject firm did not separate or threaten to separate a significant number or proportion of workers as required by section 222 of the Trade Act of 1974. Significant number or proportion of the workers means that at least three workers in a firm with a workforce of fewer than 50 workers, or five percent of the workers in a firm with a workforce of more than 50 workers would have to be affected. Separations by the subject firm did not meet this threshold level; consequently the petition has been terminated.

Signed at Washington, DC, this 2nd day of March, 2004.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

Union Tools, Inc., a Subsidiary of Acorn Products, Frankfort, NY; Amended Certification Regarding Eligibility to Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on January 23, 2004, applicable to workers of Union Tools, Inc., a subsidiary of Acorn Products, Frankfort, New York. The notice will be published soon in the **Federal Register**.

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of lawn and garden tools.

New information from the State shows that the International Brotherhood of Boiler Makers, Iron Ship Builders, Blacksmiths, Forgers and Helpers, requested Alternative Trade Adjustment Assistance (ATAA) on behalf of the workers of the subject firm but that request was not addressed in the decision document.

Information obtained from the company indicates that a significant number of workers of the subject firm are age 50 or over, workers have skills that are not easily transferable, and conditions in the industry are adverse. Review of this information shows that all eligibility criteria under Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, have been met.

Accordingly, the Department is amending the certification to reflect its finding.

The amended notice applicable to TA-W-53,994 is hereby issued as follows:

“All workers of Union Tools, Inc., a subsidiary of Acorn Products, Frankfort, New York, who became totally or partially separated from employment on or after January 12, 2003, through January 23, 2006, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974 and are also eligible to apply for Alternative Trade Adjustment Assistance under section 246 of the Trade Act of 1974.”

Signed at Washington, DC., this 8th day of March, 2004.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an

opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimized, collection instruments are understandable, and OSHA's estimate of the information collection burden is correct.

Section 21 of the Occupational Safety and Health Act of 1970 (the "OSH Act") (29 U.S.C. 670) authorizes the Occupational Safety and Health Administration ("OSHA" or the "Agency") to conduct education and training courses. These courses must ensure an adequate number of qualified personnel to fulfill the purposes of the Act, provide them with short-term training, inform them of the importance and proper use of safety and health equipment, and train employers and employees to recognize, avoid, and prevent unsafe and unhealthful working conditions, occupational education and training courses.

Under Section 21 of the Act, the OSHA Training Institute (the "Institute") provides basic, intermediate, and advanced training and education in occupational safety and health for Federal and State compliance officers, Agency professionals and technical-support personnel, employers, employees, organizations representing employees and employers, educators who develop curricula and teach occupational safety and health courses, and representatives of professional safety and health groups. The Institute provides courses on occupational safety and health at its national training facility in Des Plaines, Illinois.

Students attending Institute courses complete the one-page Student Data Form (OSHA Form 182, 5/98 edition) on the first day of class. The form provides information under five major categories titled "Course Information," "Personal Data," "Employer Data," "Emergency Contacts," and "Students Groups." The OSHA Office of Training and Education (the "Office") compiles, for each fiscal year, the following information from the "Course Information" and "Student Groups" categories: Total student attendance at the Institute; the number of students attending each training course offered by the Institute; and the types of students attending these courses (for example, students from Federal or State occupational safety and health agencies). The Office uses this information to demonstrate, in an accurate and timely manner, that the Agency is providing the training and
