III. Evaluation of Deeming Request

On June 27, 2001, NCQA submitted all the necessary information to permit us to make a determination concerning its request for approval as a deeming authority for M+C organizations that are licensed as an HMO. Under § 422.158(a) of the regulations, our review and evaluation of a national accreditation organization will consider, but not necessarily be limited to, the following information and criteria:

- The equivalency of NCQA's requirements for HMOs to CMS's comparable M+C organization requirements.
- NCQA's survey process, to determine the following:
 - The frequency of surveys.
 - The types of forms, guidelines and instructions used by surveyors.
 - Descriptions of the accreditation decision making process, deficiency notification and monitoring process, and compliance enforcement process.
- Detailed information about individuals who perform accreditation surveys including—
 - Size and composition of the survey team;
 - Education and experience requirements for the surveyors;
 - In-service training required for surveyor personnel;
 - Surveyor performance evaluation systems; and
 - Conflict of interest policies relating to individuals in the survey and accreditation decision process.
- Descriptions of the organization's—
- Data management and analysis system;
- Policies and procedures for investigating and responding to complaints against accredited organizations;
- Types and categories of accreditation offered and M+C organizations currently accredited within those types and categories.

In accordance with § 422.158(b), the applicant must provide documentation relating to—

- Its ability to provide data in a CMS-compatible format;

—The adequacy of personnel and other resources necessary to perform the required surveys and other activities; and

—Assurances that it will comply with ongoing responsibility requirements specified in § 422.157(c).

Additionally, the accrediting organization must provide CMS the opportunity to observe its accreditation process on site at a managed care organization and must provide any other information that is required by CMS to prepare for an onsite visit to the AO's offices. These site visits will help to verify that the information presented in the application is correct and to make a determination on the application.
