3. *Information* means any communication or representation of knowledge such as fact or data, in any medium or form, including textual, numerical, graphic, cartographic, narrative or audiovisual forms, whether on paper, film or electronic media and whether disseminated via fax, recording, machine readable data or website. This definition includes information from NCUA's web page, but does not include the provision of hyperlinks to information that others disseminate. It also does not include distribution limited to correspondence with individuals or persons, press releases, archival records, public filings, subpoenas, adjudicative processes or opinions, unless that opinion is the NCUA's official point of view.

4. *Integrity* refers to the security of information—protection of the information from unauthorized access or revision, to ensure that the information is not compromised through corruption or falsification.

5. *Objectivity* involves two distinct elements, presentation and substance. Objectivity in presentation requires NCUA to present disseminated information in an accurate, clear, complete, and unbiased manner. To accomplish this, NCUA must assure that the information is presented within a proper context. NCUA will identify the sources of the disseminated information (to the extent possible, consistent with confidentiality protections) and, in a financial or statistical context, the supporting data and models, so that the public can assess for itself whether there may be some reason to question the objectivity of the sources. Where appropriate, data will have full, accurate, transparent documentation, and error sources affecting data quality will be identified and disclosed to users.

Objectivity in substance requires NCUA to disseminate accurate, reliable and unbiased information. To accomplish this, in a financial or statistical context, NCUA must assure that sound statistical and research methods are used to generate the original and supporting data and the conclusions that flow from the data. If NCUA disseminates influential information, it must assure that its conclusions are capable of being substantially reproduced.

6. *Quality* is an encompassing term comprising utility, objectivity, and integrity. Therefore, the guidelines sometimes refer to these four terms collectively, as "quality."

7. *Reproducibility* means that information is capable of being

substantially reproduced subject to an acceptable degree of imprecision.

8. *Utility* refers to the usefulness of the information to its intended users, including the public. In assessing the usefulness of information that NCUA disseminates to the public, NCUA will consider the uses of the information not only from the perspective of the agency but also from the perspective of the public. As a result, when transparency of information is relevant for assessing the information's usefulness from the public's perspective, NCUA will take care to ensure that transparency has been addressed in its review of the information. Transparency refers to a clear description of the methods, data sources, assumptions, outcomes and related information that will allow a data user to understand how information was produced.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-315 AND 50-316]

Indiana Michigan Power Company; Donald C. Cook Nuclear Plant Units 1 and 2; Notice of Consideration of Approval of Application Regarding Proposed Corporate Restructuring and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the indirect transfer of Facility Operating Licenses Nos. DPR-58 and DPR-74 for the Donald C. Cook Nuclear Plant, Units 1 and 2, held by Indiana Michigan Power Company (I&M, the licensee), as the owner and licensed operator. The indirect transfer would occur as a result of a proposed corporate restructuring, under which an affiliate company, Central and South West Corporation (CSW), would become the direct parent company of I&M. I&M and CSW are currently wholly-owned, direct subsidiaries of American Electric Power Company (AEP). AEP is a registered holding company under the Public Utility Holding Company Act of 1935, as amended. Upon the completion of the restructuring, CSW will remain a wholly-owned, direct subsidiary of AEP, while I&M will be a wholly-owned, direct subsidiary of CSW. Thus, I&M will become an indirect subsidiary of AEP.

According to an application for approval filed by the licensee, the proposed action will not involve any transfer of the assets of I&M, which will continue to be the licensee, responsible for the operation, maintenance, and

eventual decommissioning of Donald C. Cook Nuclear Plant, Units 1 and 2. No physical changes to the Donald C. Cook Nuclear Plant facility, changes to the License or Technical Specifications or operational changes are being proposed in the application.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the indirect transfer of a license, if the Commission determines that the underlying transaction effecting the indirect transfer will not affect the qualifications of the holder of the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

By May 28, 2002, any person whose interest may be affected by the Commission's action on the application may request a hearing and, if not the applicant, may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice set forth in Subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.1306, and should address the considerations contained in 10 CFR 2.1308(a). Untimely requests and petitions may be denied, as provided in 10 CFR 2.1308(b), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.1308(b)(1)-(2).

Requests for a hearing and petitions for leave to intervene should be served upon Jeffrey D. Cross, Esq., General Counsel, 1 Riverside Plaza, Columbus, Ohio 34215 (tel: 614-223-2580; fax: (614) 223-1560; e-mail: jdcross@AEP.COM); and the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555 (e-mail address for filings regarding license
