BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2021-0116; FRL-9496-01-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Plating and Polishing Area Sources (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), NESHAP for Plating and Polishing Area Sources (EPA ICR Number 2294.06, OMB Control Number 2060-0623), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2022. Public comments were previously requested via the **Federal Register** on April 13, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently-valid OMB control number.

DATES: Additional comments may be submitted on or before February 25, 2022.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2021-0116, online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711; telephone number: (919) 541-0833; email address: ali.muntasir@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov>, or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Plating and Polishing Area Sources (40 CFR part 63, subpart WWWWWW) apply to both existing and new plating and polishing facilities that are an area source of hazardous air pollutant (HAP) emissions and that use one or more of the following metal HAP: Cadmium, chromium, lead manganese, or nickel (hereafter referred to as the plating and polishing metal HAP). A

plating and polishing facility is a plant site that is engaged in any of the following processes: Non-chromium electroplating; electroless or non-electrolytic plating; other non-electrolytic metal coating processes such as chromate conversion coating, nickel acetate sealing, sodium dichromate sealing, and manganese phosphate coating, and thermal spraying; dry mechanical polishing of finished metals and formed products after plating or thermal spraying; electroforming; and electro-polishing. New facilities include those that commenced construction, modification, or reconstruction after the date of proposal. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 63, subpart WWWWWW.

Form Numbers: None.

Respondents/affected entities: Plating and polishing area source facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart WWWWWW).

Estimated number of respondents: 2,900 (total).

Frequency of response: Initially and annually.

Total estimated burden: 67,700 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$8,000,000 (per year), which includes no annualized capital/startup or operation & maintenance costs.

Changes in the Estimates: There is no change in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This situation is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Second, the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup or

operation and maintenance (O&M) costs.

Courtney Kerwin,

Director, Regulatory Support Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Cross-State Air Pollution Rule and Texas SO₂ Trading Programs (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), “Cross-State Air Pollution Rule and Texas SO₂ Trading Programs (Renewal)” (EPA ICR Number 2391.06, OMB Control Number 2060-0667) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2022. Public comments were previously requested via the **Federal Register** on May 25, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before February 25, 2022.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA’s public docket, visit <https://www.epa.gov/dockets>.

Abstract: EPA is renewing an ICR for the Cross-State Air Pollution Rule (CSAPR) trading programs to allow for continued implementation of the programs. The information collection requirements under five CSAPR trading programs and the Texas SO₂ Trading Program are reflected in the existing ICR as most recently revised in 2018. In 2021, EPA promulgated an additional CSAPR NO_x Ozone trading program which only includes sources previously subject to another CSAPR trading program reflected in the current ICR. This ICR renewal reflects all six CSAPR trading programs and the Texas SO₂ Trading Program. Most affected sources under the CSAPR and Texas trading programs are also subject to the Acid Rain Program (ARP). The information collection requirements under the CSAPR and Texas trading programs, which consist primarily of requirements to monitor and report emissions data in accordance with 40 CFR part 75, substantially overlap and are fully integrated with ARP information collection requirements. The burden and costs of overlapping requirements are accounted for in the ARP ICR (OMB Control Number 2060-0258). This ICR accounts for information collection burden and costs under the CSAPR and Texas trading programs that are incremental to the burden and costs already accounted for in the ARP ICR.

All data received by EPA will be treated as public information.

Form Numbers: Agent Notice of Delegation #5900-172, Certificate of Representation #7610-1, General Account Form #7610-5, Allowance Transfer Form #7610-6, Retired Unit Exemption #7610-20, Allowance Deduction #7620-4.

Respondents/affected entities:

Industry respondents are stationary, fossil fuel-fired boilers and combustion turbines serving electricity generators subject to the CSAPR and Texas trading programs, as well as non-source entities voluntarily participating in allowance trading activities. Potential state respondents are states that can elect to submit state-determined allowance allocations for sources located in their states.

Respondents’ obligation to respond:

Industry respondents: Voluntary and mandatory (Sections 110(a) and 301(a) of the Clean Air Act). State respondents: Voluntary.

Estimated number of respondents:

EPA estimates that there are 953 industry respondents, including 903 affected sources and 50 non-source entities participating in allowance trading activities, and 27 potential state respondents.

Frequency of response: On occasion, quarterly, and annually.

Total estimated burden: 113,512 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$16,482,349 (per year); includes \$7,095,827 annualized capital or operation & maintenance costs.

Changes in Estimates: There is decrease of 20,911 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due almost entirely to adjustments in the estimated numbers of respondents and transactions.

Courtney Kerwin,

Director, Regulatory Support Division.
