SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-92123; No. SR-NYSEArca-2021-50]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Modify the NYSE Arca Options Fee Schedule

June 7, 2021.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the "Act")² and Rule 19b-4 thereunder,³ notice is hereby given that, on June 2, 2021, NYSE Arca, Inc. ("NYSE Arca" or the "Exchange") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to modify the NYSE Arca Options Fee Schedule ("Fee Schedule") regarding the charges applicable to Manual transactions by NYSE Arca Market Makers and Lead Market Makers. The Exchange proposes to implement the fee change effective June 2, 2021.⁴ The proposed rule change is available on the Exchange's website at www.nyse.com, at the principal office of the Exchange, and at the Commission's Public Reference Room.

¹⁷ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

⁴ The Exchange originally filed to amend the Fee Schedule on May 3, 2021 (SR-NYSEArca-2021-34), then withdrew and refiled on May 12, 2021 (SR-NYSEArca-2021-42) and May 21, 2021 (SR-NYSEArca-2021-45), which latter filing the Exchange withdrew on June 2, 2021.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this filing is to modify the Fee Schedule regarding the charges for Manual executions by NYSE Arca Market Makers ("Market Makers") and Lead Market Makers ("LMMs"). Currently, Market Makers are charged \$0.25 per contract for Manual executions, and LMMs are charged \$0.18 per contract for Manual executions.⁵

The Exchange proposes to modify the rates charged for Manual executions to \$0.35 per contract for Market Makers and \$0.30 per contract for LMMs. The proposed rate for Market Makers is competitive and intended to align the Exchange's fees for Manual transactions by Market Makers with those charged by other markets.⁶ The proposed rate for LMMs would reduce the existing disparity between rates charged to LMMs and Market Makers from seven cents (\$0.07) to five (\$0.05), which disparity the Exchange believes continues to be justified given the heightened obligations and additional fees imposed on LMMs.⁷

⁵ See Fee Schedule, NYSE Arca OPTIONS: TRADE-RELATED CHARGES FOR STANDARD OPTIONS, TRANSACTION FEE FOR MANUAL EXECUTIONS—PER CONTRACT.

⁶ See, e.g., Nasdaq PHLX LLC ("Phlx") Pricing Schedule, available at: <https://listingcenter.nasdaq.com/rulebook/phlx/rules/Phlx%20Options%207> (providing \$0.35 per contract rate for manual transactions by market makers); Cboe Exchange, Inc. ("Cboe") Fee Schedule, available at: https://cdn.cboe.com/resources/membership/Cboe_FeeSchedule.pdf (providing \$0.35 per contract rate for manual transactions by market makers).

⁷ See Rules 6.37A–O(b) (setting forth the continuous quoting obligations of LMMs to provide two-sided quotations in its appointed issues for 90% of the time the Exchange is open for trading in each issue) and 6.82–O(c) (regarding additional obligations specific to LMMs, including that LMMs that operate on the Trading Floor are required to be

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁸ in general, and furthers the objectives of Sections 6(b)(4) and (5) of the Act,⁹ in particular, because it provides for the equitable allocation of reasonable dues, fees, and other charges among its members, issuers and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers.

The Proposed Rule Change Is Reasonable

The Exchange operates in a highly competitive market. The Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”¹⁰

There are currently 16 registered options exchanges competing for order flow. Based on publicly-available information, and excluding index-based options, no single exchange has more than 16% of the market share of executed volume of multiply-listed equity and ETF options trades.¹¹ Therefore, currently no exchange possesses significant pricing power in the execution of multiply-listed equity & ETF options order flow. More specifically, in March 2021, the Exchange had less than 11% market share of executed volume of multiply-listed equity and ETF options trades.¹²

present every day). See Fee Schedule, NYSE Arca General Options and Trading Permit (OTP) Fee, Lead Market Maker Rights (setting forth the Rights Fee assessed on each issue in an LMM’s allocation, with rates based on the Average National Daily Customer Contracts).

¹⁰ See Securities Exchange Act Release No. 51808 (June 9, 2005), 70 FR 37496, 37499 (June 29, 2005) (S7–10–04) (“Reg NMS Adopting Release”).

¹¹ The OCC publishes options and futures volume in a variety of formats, including daily and monthly volume by exchange, available here: <https://www.theocc.com/Market-Data/Market-Data-Reports/Volume-and-Open-Interest/Monthly-Weekly-Volume-Statistics>.

¹² Based on a compilation of OCC data for monthly volume of equity-based options and monthly volume of ETF-based options, *see id.*, the Exchange’s market share in multiply-listed equity and ETF options decreased slightly from 11.10% for the month of March 2020 to 10.16% for the month of March 2021.

The Exchange believes that the ever-shifting market share among the exchanges from month to month demonstrates that market participants can shift order flow, or discontinue or reduce use of certain categories of products, in response to fee changes. Accordingly, competitive forces constrain options exchange transaction fees. Stated otherwise, changes to exchange transaction fees and rebates can have a direct effect on the ability of an exchange to compete for order flow.

The proposed rule change is designed to bring the Exchange’s fees for Market Maker Manual executions into alignment with those charged on other markets with Trading Floors. The Exchange believes it is reasonable to increase certain fees, similar to fees assessed by competing options exchanges for similar transactions, and notes that LMMs will continue to be charged lower fees than those assessed by competing options exchanges for similar transactions.¹³ The Exchange also believes that it is reasonable to continue to offer LMMs lower fees than Market Makers for Manual transactions given that LMMs are subject to heightened obligations and additional monthly Rights Fees.¹⁴

The Exchange believes that the proposed increased charge for Manual executions by Market Makers and LMMs but not for other market participants is reasonable because the resulting disparity would align the Exchange’s fees for Manual executions with the fees charged on other exchanges.¹⁵ In addition, the Exchange believes that other pricing incentives offered by the Exchange would continue to encourage Market Makers and LMMs to conduct Manual transactions on the Exchange.¹⁶

¹³ See *supra* note 6.

¹⁴ See *supra* note 7.

¹⁵ The Exchange does not impose any fee on Manual transactions by Customers but does charge \$0.25 per contract for Manual transactions by Firms, Broker-Dealers and Professional Customers, which rates are consistent with fees charged these market participants on other exchanges. See, e.g., *supra* note 6, PHLX Pricing Schedule and Cboe Fee Schedule (both exchanges imposing no charge for manual transactions by customers and imposing a \$0.25 per contract rate for manual transactions by firms, broker-dealers and professional customers).

¹⁶ See e.g., Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Modify the NYSE Arca Options Fee Schedule Regarding the Limits on Fees for Options Strategy Executions, Securities Exchange Act Release No. 90949 (January 19, 2021), 86 FR 7152 (January 26, 2021) (SR–NYSEArca–2021–06) (reducing the cap on strategy executions from \$1,000 to \$200 for OTP Holders that execute at least 25,000 monthly billable contract sides in Strategy Executions) and Fee Schedule, Limit of Fees on Options Strategy Executions. While the reduction to the cap on Strategy Executions is available to all OTP Holders, the Exchange notes that Maker Makers and LMMs have a time and place advantage by virtue of their

The Exchange thus believes the proposed changes, even though they are increased fees, would not discourage Market Makers and LMMs from continuing to conduct Manual executions on the Exchange and would continue to attract volume and liquidity to the Exchange generally and would therefore benefit all market participants (including those that do not participate in Manual executions) through increased opportunities to trade.

Finally, to the extent the proposed fees do not discourage Market Makers and LMMs from continuing to conduct Manual executions on the Exchange, the Exchange believes the proposed changes would continue to improve the Exchange’s overall competitiveness and strengthen its market quality for all market participants. In the backdrop of the competitive environment in which the Exchange operates, the proposed rule change is a reasonable attempt by the Exchange to maintain its market share relative to its competitors.

The Proposed Rule Change Is an Equitable Allocation of Fees and Rebates

The Exchange believes the proposed rule change is an equitable allocation of its fees and credits. The proposal is based on the type of business transacted on the Exchange, and Market Makers and LMMs can opt to participate in Manual executions or not. The Exchange notes that the increased fees for Manual executions by Market Makers and LMMs, but not for other market participants, represents an equitable allocation of fees given that the proposed fees (and resulting disparity) are consistent with fees charged for Manual executions by market makers on other exchanges.¹⁷ The Exchange also believes that continuing to offer LMMs lower fees than Market Makers is an equitable allocation of fees given that LMMs are subject to heightened obligations and additional fees set forth in the Exchange’s Fee Schedule.¹⁸

Moreover, even though the proposed changes increase the fees applicable to Manual executions by Market Makers and LMMs, the Exchange does not believe they will discourage such executions on the Exchange or the aggregation of such executions at the Exchange as a primary execution venue, including because of other pricing incentives available to such participants

presence on the Trading Floor to participate in such executions and therefore benefit from the reduced cap.

¹⁷ See *supra* notes 6 and 15.

¹⁸ See *supra* note 7.

on the Exchange.¹⁹ To the extent that the proposed changes continue to attract Manual executions to the Exchange, this order flow would continue to make the Exchange a more competitive venue for, among other things, order execution. Thus, the Exchange believes the proposed rule change would continue to improve market quality for all market participants on the Exchange and, as a consequence, continue to attract more order flow to the Exchange, thereby improving market-wide quality and price discovery.

The Proposed Rule Change Is Not Unfairly Discriminatory

The Exchange believes that the proposal is not unfairly discriminatory because the proposed modifications would apply to all Market Makers and LMMs conduct Manual executions on the Exchange on an equal and non-discriminatory basis.

The proposal is based on the amount and type of business transacted on the Exchange, and Market Makers and LMMs are not obligated to participate in Manual executions on the Exchange. Rather, the proposal is designed to continue to encourage the use of the Exchange as a primary trading venue (if they have not done so previously) by maintaining the Trading Floor for Manual executions.

The Exchange also believes that increasing fees for Manual executions by Market Makers, but not other market participants, is not unfairly discriminatory given that the proposed rates (and resulting disparity) are a competitive response to rates charged on competing options exchanges for manual executions by market makers and because these participants may available themselves of other reduced fees and incentives offered by the Exchange.²⁰ The Exchange also believes that it is not unfairly discriminatory to continue to offer LMMs lower fees than Market Makers given that LMMs are subject to heightened obligations and additional fees set forth in the Exchange's Fee Schedule.²¹

To the extent that the proposed change assists the Exchange in continuing to attract Manual executions to the Trading Floor, this order flow would continue to make the Exchange a more competitive venue for order execution. Thus, the Exchange believes the proposed rule change would contribute to market quality for all market participants on the Exchange and, as a consequence, attract more

order flow to the Exchange, thereby improving market-wide quality and price discovery. The resulting volume and liquidity would continue to provide more trading opportunities and tighter spreads to all market participants and thus would promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, protect investors and the public interest.

Finally, the Exchange believes that it is subject to significant competitive forces, as described below in the Exchange's statement regarding the burden on competition.

B. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act, the Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Instead, as discussed above, the Exchange believes that the proposed changes would be consistent with charges for similar business at other markets. As a result, the Exchange believes that the proposed changes further the Commission's goal in adopting Regulation NMS of fostering integrated competition among orders, which promotes "more efficient pricing of individual stocks for all types of orders, large and small."²²

Intramarket Competition. The proposed change is designed to continue to promote the use of the Exchange as a primary trading venue by maintaining the Trading Floor for Manual executions, which would enhance the quality of quoting and may increase the volumes of contracts traded on the Exchange. The Exchange believes that the proposed increased fees for Manual executions by Market Makers and LMMs but not for other market participants would not impose any burden on intermarket competition that is not necessary or appropriate because the proposed fees (and resulting disparity) are consistent with fees charged for Manual executions by market makers on other exchanges and because these participants may available themselves of other reduced fees and incentives offered by the Exchange.²³ The Exchange believes that the proposed modifications to the rates applicable to Manual executions by Market Makers and LMMs will not

discourage those market participants from continuing to conduct Manual executions on the Exchange (including because LMMs will continue to receive lower fees than those assessed by competing options exchanges for similar transactions). To the extent that this purpose is achieved, all of the Exchange's market participants should benefit from the continued market liquidity. Enhanced market quality and increased transaction volume that results from the increase in order flow directed to the Exchange will benefit all market participants and improve competition on the Exchange.

Intermarket Competition. The Exchange operates in a highly competitive market in which market participants can readily favor one of the 16 competing option exchanges if they deem fee levels at a particular venue to be excessive. In such an environment, the Exchange must continually adjust its mechanisms and fees to remain competitive with other exchanges and to attract order flow to the Exchange. Based on publicly-available information, and excluding index-based options, no single exchange currently has more than 16% of the market share of executed volume of multiply-listed equity and ETF options trades.²⁴ Therefore, no exchange currently possesses significant pricing power in the execution of multiply-listed equity & ETF options order flow. More specifically, in March 2021, the Exchange had less than 11% market share of executed volume of multiply-listed equity and ETF options trades.²⁵

The Exchange believes that the proposed rule change reflects this competitive environment because it modifies the Exchange's fees to be more closely aligned with fees charged by other markets with Trading Floors for similar transactions.²⁶ The Exchange also believes that the proposed changes would continue to promote competition between the Exchange and other execution venues by encouraging orders to be sent to the Exchange for execution. To the extent that this purpose is achieved, all the Exchange's market participants should benefit from the improved market quality and increased opportunities for price improvement.

²² See Reg NMS Adopting Release, *supra* note 10, at 37499.

²³ See *supra* notes 6, 15 and 16.

²⁴ See *supra* note 11.
²⁵ Based on a compilation of OCC data for monthly volume of equity-based options and monthly volume of ETF-based options, see *id.*, the Exchange's market share in multiply-listed equity and ETF options decreased slightly from 11.10% for the month of March 2020 to 10.16% for the month of March 2021.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change is effective upon filing pursuant to Section 19(b)(3)(A) ²⁷ of the Act and subparagraph (f)(2) of Rule 19b-4 ²⁸ thereunder, because it establishes a due, fee, or other charge imposed by the Exchange.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings under Section 19(b)(2)(B) ²⁹ of the Act to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
