

DEPARTMENT OF DEFENSE**Department of the Army****Programmatic Environmental Assessment for Real Property Master Plans on U.S. Army Installation Management Command Garrisons****AGENCY:** Department of the Army, DoD.**ACTION:** Notice of Availability.

SUMMARY: The U.S. Army Installation Management Command (IMCOM) has completed a Programmatic Environmental Assessment (PEA) analyzing the impacts of developing, adopting, implementing, and updating Real Property Management Plans (RPMPs) and their component documents using a standardized process in accordance with Department of Defense (DoD) and Army guidance, and encouraging community partner participation in this process. The Army is making the PEA and a draft Finding of No Significant Impact (FONSI) available for public comment. The PEA identifies no significant environmental impacts from implementing the Proposed Action. The draft FONSI concludes that preparing an environmental impact statement is not required and, therefore, one will not be prepared.

DATES: The public comment period will end 30 days after publication of the Notice of Availability in the **Federal Register** by the Department of the Army.

ADDRESSES: Written comments should be sent by mail to U.S. Army Environmental Command, ATTN: Public Comments, 2450 Connell Road (Build 2264), Joint Base San Antonio-Fort Sam Houston, TX 78234-7664; or by email to usarmy.jbsa.aec.nepa@mail.mil.

FOR FURTHER INFORMATION CONTACT: U.S. Army Environmental Command Public Affairs Office at (210) 466-1590 or toll-free at (855) 846-3940, or at usarmy.jbsa.aec.nepa@mail.mil.

SUPPLEMENTARY INFORMATION: The Army has prepared this PEA in accordance with the National Environmental Policy Act of 1969 (NEPA) (Title 42 of the *United States Code* Section 4321); Council on Environmental Quality (CEQ) NEPA regulations (Title 40 of the *Code of Federal Regulations* [CFR] Parts 1500-1508); and the Army's NEPA implementing regulation, *Environmental Analysis of Army Actions* (32 CFR part 651).

The purpose of the Proposed Action is for IMCOM garrisons to plan for and manage their real property assets comprehensively to permit installation

expansion, reduction, and changes in mission sustainably over a 20-year planning horizon. The Proposed Action is needed to provide a standard process to guide sustainable and energy-efficient development across IMCOM installations that supports mission requirements. It is also needed to provide a continuous analytical process to evaluate factors affecting the present and future physical development and operation of installations. Standardizing the process of developing RPMPs and component documents at IMCOM garrisons is expected to result in each garrison producing a more thoughtful and deliberative plan that contains comparable categories of information and is similarly organized across all installations.

The PEA will serve to integrate the NEPA process more efficiently into the master planning process, avoid unnecessary duplicative NEPA analyses, better inform decision makers, and encourage active public involvement.

The RPMP serves as a garrison's road map for short- and long-term investment, management and development of its real property assets, including land, facilities, and infrastructure. It provides guidelines for sustainable installation development, regulates project siting, and ensures sustainable and orderly development that supports the installation's mission.

When considering implementing an individual proposed action, IMCOM garrisons would complete the Environmental Checklist in the PEA to determine whether tiering from the PEA and FONSI would be appropriate and what type of additional site-specific NEPA documentation, if any, would be required. If a garrison determines that a specific installation RPMP, RPMP component document, or project requires additional NEPA analysis tiered from the PEA, the garrison would be required to complete the appropriate NEPA documentation before making any irreversible and irretrievable commitments of resources related to that action. Tiering from the PEA, when appropriate, would avoid or reduce the costs of repetitive, similar analyses and enable IMCOM to focus resources on only those site-specific environmental issues that require deeper analyses.

Members of the public, federally recognized Native American tribes, and federal, state, and local agencies are invited to submit written comments on the PEA and/or draft FONSI.

The PEA and draft FONSI can be accessed on the U.S. Army Environmental Command's NEPA

ACTION: Notice.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act (NEPA) of 1969, as implemented by the Council on Environmental Quality, and Presidential Executive Order 12114, the Department of the Navy (DON) has prepared and filed the Point Mugu Sea Range (PMSR) Draft Environmental Impact Statement/Overseas Environmental Impact Statement (EIS/OEIS) with the United States Environmental Protection Agency. The PMSR Draft EIS/OEIS evaluates the potential environmental consequences associated with conducting military readiness activities within the PMSR, which include testing (research, development, acquisition, testing and evaluation (RDAT&E)) and training activities analyzed in the March 2002

PMSR Final EIS/OEIS and environmental assessments (EAs) completed since 2002. The Draft EIS/OEIS also evaluates proposed increases in military testing and training tempo at the PMSR to fully support current, emerging, and foreseeable future RDAT&E and Fleet training requirements.

DATES: The 45-day public comment period begins April 24, 2020 and ends June 8, 2020. All public comments are due by June 8, 2020. Due to current Federal and State guidance on social distancing in response to COVID-19, the Navy will not hold in-person public meetings during the Draft EIS/OEIS public comment period.

emerging, and foreseeable future testing and training requirements; and to ensure the long-term viability of the PMSR. The need for the proposed action is to allow for continued testing and training in support of military readiness and DoD mission requirements as required by Title 10 and to provide combat ready forces.

The DON distributed the Draft EIS/OEIS to federal agencies and federally recognized tribes with which the DON is consulting and to other stakeholders.
