10. Judith Zelikoff, Ph.D., New York University School of Medicine, Tuxedo, NY—i. *Expertise*: Toxicology.

ii. *Education*: B.S. in Biology from Upsala College, M.S. in Microbiology from Farleigh Dickinson University, and Ph.D. in Experimental Pathology from University of Medicine and Dentistry of New Jersey—New Jersey Medical School.

iii. *Professional Experience*: Dr. Zelikoff, a tenured full professor and Principal Investigator, has more than 25 years experience using animal models for assessing the toxicology of inhaled pollutants including metals, nanomaterials, and pollution mixtures from combustible tobacco products, as well as that from wood burning and diesel exhaust. Recently, studies in her laboratory have focused on the fetal basis of adult disease associated with prenatal exposure of mice to inhaled nanomaterials, ambient particulate matter (PM), and cigarette smoke (CS). Results from the cigarette smoke publications demonstrated that in utero exposure to a maternal dose of CS equivalent to smoking <1 pack of cigarettes/day increases risk factors in the offspring associated with cardiovascular disease, asthma, immune dysfunction, and attention-deficit hyperactivity disorder later in life and in a sex-dependent manner. Her tobacco studies have recently been extended to examine toxicity of smokeless tobacco (ST) using a mouse model of oral mucosal exposure, as well as toxicity of smoke from e-cigarettes and hookah. Studies with ST, like those with CS, examined the reproductive/developmental, immunological, cardiovascular, renal, and neurological/behavioral effects of repeated exposure during pregnancy. Earlier in her career, Dr. Zelikoff focused on environmental toxicology and published a significant number of papers on the toxicity of metals and pesticides on different fish species. Many of these publications were used to help inform policy and set regulations. In addition, immune biomarkers of effects, developed in these same fish species, were also used

as indicators of aquatic pollution and efficacy of remediation. Dr. Zelikoff also has extensive experience as a scientific leader which is reflected by her many leadership roles. She currently serves on the Executive Board of the Society of Toxicology (SOT, 8,000 member society) as Council Secretary and previously as president of both the Metals and Immunotoxicology Society of Toxicology Specialty Sections where she received a Lifetime Achievement Award. In addition, she served as a full member on two National Institute of Environmental Health Sciences (NIEHS) Study Sections and continues to serve as an ad hoc member for numerous NIH Special Emphasis Panels where she has also served as Chair. Currently, she is an editorial board member for *Environmental Health Perspectives* and serves as Associate Editor on numerous toxicological journals. As the New York University NIEHS Center Outreach Director, Dr. Zelikoff has led numerous community-guided and enrichment initiatives that have served to set public policy and improve public health by better informing local communities of the latest knowledge in environmental health.
