

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Project No. 12693–001]

Sutton Hydroelectric Company, LLC**Notice of Site Visit**

On February 6, 2008, Sutton Hydroelectric Company, LLC (Sutton Hydroelectric) filed a notice of intent and a preliminary application document to license its proposed Sutton Hydroelectric Project No. 12693. The project would be located at the U.S. Army Corps of Engineers' (Corps) Sutton Dam on the Elk River, in Braxton County, West Virginia. The project would occupy federal lands administered by the Corps.

On April 7, 2008, the Commission issued a Scoping Document containing a description of the proposed project and mode of operation, a preliminary list of issues to be addressed in the Commission's National Environmental Policy Act (NEPA) environmental document, and a request for information and written comments.

On October 12, 2011, at 9 a.m. (E.D.T.), as part of the NEPA scoping process, Commission staff will hold a site visit at the Sutton Dam. All participants interested in attending the site visit should meet at the upstream recreation parking lot next to the dam. All participants attending the site visit should be prepared to provide their own transportation. If you have any questions please contact Tim Konnert at (202) 502–6359 or timothy.konnert@ferc.gov.

Dated: September 28, 2011.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717–01–P

of Indians filed a competing NOI and PAD for a license for the Seneca Pumped Storage Project No. 13889–000. Both FirstEnergy and the Seneca Nation plan to use the Integrated Licensing Process (ILP). The project is located at the United States Army Corps of Engineers' Kinzua Dam, and to the United States Forest Service Allegheny National Forest, adjacent to the Allegheny River and the Allegheny Reservoir near the City of Warren, in Warren County, Pennsylvania. The project occupies 221.59 acres of federal lands.

On January 28, 2011, the Commission issued a Scoping Document containing a description of the existing project and proposed project facilities and mode of operation, a preliminary list of issues to be addressed in the Commission's National Environmental Policy Act (NEPA) environmental document, and a request for information and written comments.

On October 25, 2011, at 9 a.m. (E.D.T.), as part of the NEPA scoping process, Commission staff will hold a site visit at the Kinzua Pumped Storage Project—Seneca Pumped Storage Project. All participants interested in attending the site visit should meet at the Kinzua Dam Information Center parking lot in Warren, Pennsylvania. The information center is located below Kinzua Dam adjacent to the Allegheny River. All participants attending the site visit should be prepared to provide their own transportation. If you have any question please contact Gaylord Hoisington at (202) 502–6032 or gaylord.hoisington@ferc.gov.

Dated: September 28, 2011.

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Worker Protection Standard Training and Notification

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been

available electronically. Once in the system, select "search," then key in the docket ID number identified above.

EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in <http://www.regulations.gov>. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in <http://www.regulations.gov>. For further information about the electronic docket, go to <http://www.regulations.gov>.

Title: Worker Protection Standard Training and Notification.

ICR Status: This is a request to renew an existing approved collection. This ICR is scheduled to expire on November 30, 2011. Under 5 CFR 1320.12(b)(2), the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: EPA is responsible for the regulation of pesticides under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). The Worker Protection Standard (WPS), codified at 40 CFR part 170, established requirements to protect agricultural workers and pesticide handlers from hazards of pesticides used on farms, on forests, in nurseries, and in greenhouses. EPA regulations in 40 CFR part 170 contain the standard and workplace practices, which are designed to reduce or eliminate exposure to pesticides and establish procedures for responding to exposure-related emergencies. The practices include prohibitions against applying pesticides in a way that would cause exposure to workers and others; a waiting period before workers can return to areas treated with pesticides (restricted entry interval); basic safety training (and voluntary training verification) and posting of information about pesticide hazards, as well as pesticide application information; arrangements for the supply of soap, water, and towels in

case of pesticide exposure; and provisions for emergency assistance.

The training verification program facilitates compliance with the training requirements by providing a voluntary method for employers to verify that the required safety information has been provided to workers and handlers. Responses to all other aspects of this information collection activity are mandatory. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

This renewal ICR estimates the third party response burden from complying with the WPS requirements. Information is exchanged between agricultural employers and employees at farm, forest, nursery and greenhouse establishments to ensure worker safety. No information is collected by the Agency under this ICR.

Burden Statement: The total annual respondent burden for providing the training and notifications associated with the Worker Protection Standard is estimated to be 1,827,493 hours, with the incremental burden of the various activities ranging from 2 minutes per respondent to provide initial basic safety information to 45 minutes per respondent for handler training. This total estimate includes the third party WPS training and notification requirements. Burden is defined in 5 CFR 1320.3(b).

Respondents/Affected Entities: Agricultural workers, pesticide handlers, employers in farms, nurseries, forestry, and greenhouse establishments *e.g.*, agricultural employers in farms; and (NAICS 111), and agricultural employers in the greenhouse and forestry sector (NAICS 115).

Estimated Number of Respondents: 309,085.

Frequency of Response: As needed.

Estimated Total Annual Hour Burden: 1,827,493 hours.

Estimated Total Annual Cost: \$92,729,052.

Changes in the Estimates: There is an increase of 51,362 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an adjustment in the assumptions and a minor correction in the calculations clarified in the supporting statement.

Dated: September 29, 2011.

John Moses,

Director, Collection Strategies Division.

Fenamiphos; Amendment To Use Deletion and Product Cancellation Order

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's amendment to the order for the cancellation of products, voluntarily requested by the registrant and accepted by the Agency, containing the pesticide fenamiphos, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This amendment follows a July 13, 2011 **Federal Register** Notice of Receipt of Request to Amend Use Deletion and Product Cancellation Order. In the July 13, 2011 notice, EPA indicated that it would issue an order implementing the amendment, after the 30-day comment period. One comment was received during the 30-day comment period. After consideration, the Agency has granted the requested amendment. Accordingly, the Agency will extend the deadline for persons other than the registrant to sell and distribute Nemacur 3 Emulsifiable Systemic Insecticide-Nematicide (EPA Reg. No. 264-731) for 1 year, until October 5, 2012. Additionally, the Agency will prohibit use of existing stocks of all fenamiphos products after October 6, 2014.

DATES: This amendment is effective October 5, 2011.
