Animal and Plant Health Inspection Service

Title: Importation of Pork-Filled Pasta.
OMB Control Number: 0579-0214.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, and eradicate pests or diseases of livestock or poultry. The Animal and Plant Health Inspection Service (APHIS) is responsible for protecting the health of our Nation's livestock and poultry populations by preventing the introduction and interstate spread of serious diseases and pests of livestock and for eradicating such diseases from the United States when feasible.

Need and Use of the Information: A certificate must be completed and signed by the issuing official, and contains such information as the origin of the meat used in the product, the name and location of the facility that processed the product, and the product's intended destination. Without the information, it would significantly cripple APHIS' ability to ensure that pork-filled pasta from certain regions pose a minimal risk of introducing swine vesicular disease into the United States.

Risk Management Agency

Title: General Administrative Regulations; Interpretations of Statutory and Regulatory Provisions.

OMB Control Number: 0563-0055.

Summary of Collection: Section 533 of the Agricultural Research, Extension, and Education Reform Act of 1998 (1998 Research Act) requires the Federal Crop Insurance Corporation (FCIC) to publish regulation on how FCIC will provide a final agency determination in response to certain inquiries. This section provides procedures when FCIC fails to respond in the established time, the interpretation of the requested is considered correct for the crop year. It becomes necessary for the requester, or respondent, to identify himself so he

can be provided a response and also to state his interpretation of the regulation for which he is seeking a final agency interpretation.

Need and Use of the Information: FCIC will use the requester's name and address to provide a response. The identification and quotation of the specific provision in the 1998 Research Act or regulations allows FCIC to research and respond to the specific identified provision. The respondent's detailed interpretation of the regulation is required to comply with the requirements of Sec. 533 of the 1998 Research Act and to clarify the boundaries of the request to FCIC. If the requested information is not collected with each submission, FCIC would not be able to comply with the statutory mandates.

Risk Management Agency

Title: Request for Applications for Research Partnerships.

OMB Control Number: 0563-0065.

Summary of Collection: The Federal Crop Insurance Act of 2002 authorizes the Federal Crop Insurance Corporation to enter into partnerships with public and private entities for the purpose of increasing the availability of risk management tools for producers of agricultural commodities. The Risk Management Agency (RMA) has developed procedures for the preparation, submission and evaluation of applications.

Need and Use of the Information: RMA and a review panel of independent reviewers will use the information to determine applicant eligibility and to evaluate the applications. The qualifying applicants will be scored on each of five criteria: Research objectives; RMA involvement/non-financial benefits; research methodology, development, and implementation; management; and bonus points for proposals that address RMA priorities and/or are submitted by applicants representing a geographically diverse area. Scores are totaled, listed in rank order and are used for the final decision on awards. If the information is not collected, the consequences would be a missed opportunity to improve and or develop new risk management tools for agricultural producers. The impact would affect those segments of agriculture lacking access to existing risk management tools.

Description of Respondents: State, Local, or Tribal Government; Not-for-profit Institutions.

Number of Respondents: 100.

Frequency of Responses: Reporting: Occasion.

Total Burden Hours: 3,533.

FCIC operating through the Risk Management Agency (RMA) has two application programs to carry out certain risk management education provisions of the Federal Crop Insurance Act. The two educational programs requiring application are: To establish crop insurance education and information programs in States that have been historically underserved by the Federal Crop Insurance Program; and to provide agricultural producers with training opportunities in risk management with a priority given to producers of specialty crops and underserved commodities. Funds are available to fund parties willing to assist RMA in carrying out local and regional risk management can crop insurance education programs.
