

station would be operated within an historic building in Coupeville or within the historic district (three development concept plans for three sites are included). As documented in the Draft EIS this alternative is deemed to be "environmentally preferred".

Alternative C changes the management structure of the Reserve from a Trust Board of volunteers to a paid Commission structure. Many actions are similar to Alternative B but with some distinctions. Approximately five acres of NPS-owned land at Farm II would be retained for administrative and maintenance use before exchanging the remaining farmland to a private farm owner for additional protection on other properties within the Reserve. One of the three gateways would be in a historic building in the north of the Reserve. The Reserve would partner for a visitor contact facility at a proposed marine science center.

Public Review and Comment: The Draft GMP/EIS has now been released for public review, and a limited number of printed copies are available upon request (see below). In addition, the document may be reviewed at the public library in Coupeville. Also a Draft General Management Plan Alternatives Newsletter is being issued concurrently. Written comments may be submitted using several methods. Responses are encouraged online using the electronic comment form accessed at the NPS Planning, Environment and Public Comment System (<http://parkplanning.nps.gov/ebia>). A postage-paid comment response form is included in the Alternatives Newsletter (additional pages may be attached to this form as necessary). Written comments may be directly mailed to: Rob Harbour, Reserve Manager, Ebey's Landing National Historical Reserve, P.O. Box 774, 162 Cemetery Road, Coupeville, WA 98239. In addition, oral comments may be offered at one of several public workshops to be conducted in fall, 2005. Confirmed details on dates, locations and times for these workshops will be announced in local newspapers, in the Alternatives Newsletter, via the park's website, or may be obtained by telephone at (360) 678-6084.

All written comments must be postmarked or transmitted not later than 60 days after the EPA's notice of filing is published in the **Federal Register** (immediately upon confirmation of this date it will be announced on the park's website). All comments will become part of the public record. If individuals submitting comments request that their name or address be withheld from public disclosure, the request will be

honored to the extent allowable by law. Such requests must be stated prominently in the beginning of comments. There also may be circumstances in which the NPS will withhold from the record a respondent's identity, as allowable by law. As always: The NPS will make available to public inspection all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses; and anonymous comments may not be considered.

Decision: Following the opportunity to review the Draft EIS/GMP, all public and agency comments received will be carefully considered in preparing the final document. The Final EIS is anticipated to be completed during the Fall/Winter 2006 and its availability will be similarly announced in the **Federal Register** and via local and regional press media. As a delegated EIS, the official responsible for the final decision is the Regional Director, Pacific West Region; subsequently the approved plan would be implemented by the Trust Board, Ebey's Landing National Historical Reserve, in conjunction with the Reserve Manager.

Dated: May 26, 2005.

Jonathan B. Jarvis,
Regional Director, Pacific West Region.
