[Docket No.: 070628222–7223–01]

Solicitation of Applications for the National Technical Assistance, Training, Research and Evaluation Program: Regional Training Curriculum Implementation

AGENCY: Economic Development Administration, Department of Commerce.

ACTION: Notice and request for applications.

SUMMARY: The Economic Development Administration (EDA) is soliciting applications for FY 2007 National Technical Assistance, Training, Research and Evaluation program (NTA Program) funding. Recent studies on economic development, including several EDA-funded reports, stress the importance of a regional approach to successful economic development. However, the actual implementation of economic development from the regional perspective is not robust. Therefore, in FY 2006, EDA funded the development of a practitioner-oriented curriculum to acquaint local economic development practitioners with the benefits, process, and practice of economic regionalism. Pursuant to this notice and the NTA Program, EDA now solicits applications to deliver this curriculum to practitioners across the Nation. EDA’s mission is to lead the federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. Through its NTA Program, EDA works towards fulfilling its mission by funding research and technical assistance projects to promote competitiveness and innovation in rural and urban regions throughout the United States and its territories. By working in conjunction with its research partners, EDA will help States, local governments, and community-based organizations to achieve their highest economic potential.

DATES: To be considered timely, a completed application, regardless of the format in which it is submitted, must be either: (1) Received by the EDA representative listed below under “Paper Submissions” no later than August 13, 2007 at 5 p.m. EDT; or (2) transmitted and time-stamped at www.grants.gov no later than August 13, 2007 at 5 p.m. EDT.
