Science and Technology Directorate; Submission for Review; Information Collection Request for the DHS S&T Biodefense Knowledge Center Expert Database; Correction

AGENCY: Science and Technology Directorate, DHS.

ACTION: 30-day Notice and request for comment; Correction.

SUMMARY: The Department of Homeland Security (DHS) published a document in the **Federal Register** on May 22, 2008, concerning a 30-day notice and request for comment on the Biodefense Knowledge Center Expert Database. The document contained the incorrect name of the Biodefense Knowledge Center, incorrectly written as Bio-Knowledge Center, as well as incorrect information in the summary, supplementary information, and overview of the information collection portion of the notice.

FOR FURTHER INFORMATION CONTACT: Dave Shepherd, 202-254-5897.

Corrections

In the **Federal Register** of May 22, 2008, in FR Doc. E8-11454, on page 29773, in the second column, correct

the **SUMMARY** caption to read: The Department of Homeland Security (DHS) invites the general public to comment on a new data collection form for the Biodefense Knowledge Center Expert Database: Subject Matter Expert (SME) Registration Form (DHS Form 10043). The Biodefense Knowledge Center Database will collect SME information in order to understand who can provide scientific expertise for peer review of classified life science programs. In addition, the directory will make it easier to identify scientific specialty areas for which there is a shortage of SMEs with appropriate security clearances. SME contact information, scientific expertise, and level of education will be collected electronically through a web portal currently being developed by DHS S&T. The SME information will be shared with U.S. Government program managers who have a legitimate need to identify life sciences SMEs. Cleared SMEs are necessary to accomplish scientific reviews and attend topical meetings. This notice and request for comments is required by the Paperwork Reduction Act of 1995 (Pub. Law 104-13, 44 U.S.C. chapter 35). Previously, a 60-day notice was published in the **Federal Register** on March 14, 2008.

In the **Federal Register** of May 22, 2008, in FR Doc. E8-11454, on page 29773, in the third column, correct the first sentence of the **SUPPLEMENTARY INFORMATION** caption to read: The National Counterproliferation Center has identified the need for a comprehensive and readily available list of life science SMEs who have security clearance status.

In the **Federal Register** of May 22, 2008, in FR Doc. E8-11454, on page 29774, in the first column, correct the last sentence of the third bullet under the "Overview of this Information Collection" caption to read: The SME information will be shared with U.S. Government program managers who have a legitimate need to identify life science SMEs.

BILLING CODE 4410-10-P

DEPARTMENT OF HOMELAND SECURITY

Science and Technology Directorate; Notice of Availability (NOA) for the Draft Environmental Impact Statement (DEIS) for the proposed National Bio and Agro-Defense Facility (NBAF)

AGENCY: Science and Technology Directorate (Office of National Laboratories within the Office of Research), DHS.

ACTION: Notice of Availability of the Draft Environmental Impact Statement for the National Bio and Agro-Defense Facility (NBAF).

SUMMARY: The Proposed Action to site, build, and construct the National Bio and Agro-Defense Facility (NBAF) would allow researchers to study foreign animal diseases (FAD) and zoonotic diseases (transmitted from animals to humans) for basic research, improving diagnostic tests, and developing effective vaccines and other countermeasures such as antiviral therapies. DHS anticipates that the NBAF would focus biosafety level 3 agricultural (BSL-3Ag) research on African swine fever, classical swine fever, contagious bovine pleuropneumonia, foot and mouth disease (FMD), Japanese encephalitis, and Rift Valley fever (RVF), as well as BSL-4 research on Hendra and Nipah viruses. The NBAF would be approximately 500,000 to 520,000 square feet and consist of a primary laboratory building with a vaccine development laboratory adjacent or contiguous to it. The primary research building would contain the BSL-2, BSL-3E, BSL-3Ag, and BSL-4 laboratories with their associated support spaces. The other laboratory building would be a current good manufacturing practice (cGMP) laboratory adjacent to the primary

research laboratory. The cGMP laboratory would be needed for vaccine candidate production. Other out buildings would be considered ancillary and necessary to support operation of the NBAF. Those buildings would include a guardhouse, transshipping facility, and central utility plant.

DATES: The comment period for the DEIS will end 60 days after publication of the NOA in the **Federal Register** by the U.S. Environmental Protection Agency.

ADDRESSES: To obtain a copy of the DEIS, ask questions, or submit written comments, contact Department of Homeland Security; Science and Technology Directorate; Mr. James V. Johnson; Mail Stop #2100; 245 Murray Lane, SW., Building 410; Washington, DC 20528.

FOR FURTHER INFORMATION CONTACT: All comments, both oral and written, received during this 60 day public comment period will be given equal consideration when finalizing the NBAF EIS. Comments may be submitted at the public meetings or online at <http://www.dhs.gov/nbaf> [click on Environmental Impact Statement]. You may also call: Toll-free fax 1-866-508-NBAF (6223); Toll-free voice mail; or 1-866-501-NBAF (6223).

SUPPLEMENTARY INFORMATION: Consultation between DHS and the United States Department of Agriculture (USDA) on a coordinated biodefense strategy called for in Homeland Security Presidential Directives 9 and 10 have revealed a gap that must be filled by an integrated research, development, test, and evaluation (RD&T) infrastructure for combating bio and agro terrorism threats. DHS S&T is responsible for filling this gap in a safe, secure, and environmentally sound manner. The proposed NBAF is envisioned to provide the nation with the first integrated agricultural zoonotic disease and animal health RD&T facility with the capability to address threats from high consequence zoonotic disease agents and foreign animal diseases.

DHS intends to select a single site for the construction of the NBAF. The NBAF DEIS analyzes six action alternatives as well as the No Action Alternative. The six action alternatives include construction and operation of the proposed NBAF at one of the following six site alternatives: (1) South Milledge Avenue Site; Athens, Georgia; (2) Manhattan Campus Site; Manhattan, Kansas; (3) Flora Industrial Park Site; Flora, Mississippi; (4) Plum Island Site; Plum Island, New York; (5) Umstead Research Farm Site; Butner, North Carolina; and (6) Texas Research Park

Site; San Antonio, Texas. Under the No Action Alternative, the NBAF would not be constructed and DHS would continue to use the Plum Island Animal Disease Center with necessary investments in facility upgrades, replacements, and repairs so that it could continue to operate at its current capability, but not the expanded mission requirements associated with the NBAF.

DHS has not identified a Preferred Alternative. The evaluation conducted during the NEPA process will be used in conjunction with other factors to assist DHS in selecting the proposed federal action. Additional studies are being performed concurrently with this EIS that will provide important decision-making information. Results of these studies will be used in the development of the Final EIS and the Record of Decision (ROD). In order to make these decisions and formulate the ROD, the following reports will be considered: (1) EIS, (2) Threat and Risk Assessment, (3) Site Cost Analysis, (4) Site Characterization Study, (5) Plum Island Facility Closure and Transition Cost Study; and (6) Prior analysis of the alternative sites against DHS's site selection evaluation criteria.

The information contained in these reports will assist DHS and USDA, a major stakeholder in this endeavor, in considering the protection of the public and the environment while meeting the need for a modern, high-security BSL-3Ag and BSL-4 research facility with the capabilities needed to address potential threats to our agriculture.

Comments on the Draft EIS received during the 60-day public comment period will be considered in preparing the Final EIS. Public meetings to comment on the NBAF DEIS will be held at various locations near each alternative site location and in Washington, DC. Notification of the times and locations for the public meetings will be published in local news media and on the DHS Web site, <http://www.dhs.gov/nbaf> [click on Environmental Impact Statement].
