Pure Magnesium from the People's Republic of China; Notice of Final Results of Expedited Sunset Review of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On September 1, 2005, the Department of Commerce ("the Department") initiated the sunset review of the antidumping duty order on pure magnesium from the People's Republic of China ("China"). See *Initiation of Five-Year ("Sunset") Reviews*, 70 FR 52074 (September 1, 2005). On the basis of a notice of intent to participate, and an adequate substantive response filed on behalf of the domestic interested party, and a lack of response from respondent interested parties, the Department conducted an expedited (120-day) sunset review. As a result of this sunset review, the Department finds that revocation of the antidumping duty order would likely lead to the continuation or recurrence of dumping. The dumping margin is

identified in the *Final Results of Review* section of this notice.

EFFECTIVE DATE: January 5, 2006.

FOR FURTHER INFORMATION CONTACT:

Hilary Sadler, Esq. or Maureen Flannery, AD/CVD Operations, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4340 or (202) 482-3020, respectively.

SUPPLEMENTARY INFORMATION:

Background

On September 1, 2005, the Department published the notice of initiation of the sunset review of the antidumping duty order on magnesium from China pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). See *Initiation of Five-Year ("Sunset") Reviews*, 70 FR 52074 (September 1, 2005). On September 16, 2005, the Department received a notice of intent to participate from US Magnesium, LLC, the domestic interested party, within the deadline specified in section 351.218(d)(1)(i) of the Department's regulations. The domestic interested party claimed interested party status under section 771(9)(C) of the Act, as a manufacturer, producer, or wholesaler in the United States of a domestic like product. On October 3, 2005, the Department received a complete substantive response from the domestic interested party within the deadline specified in section 351.218(d)(3)(i) of the Department's regulations. The Department did not receive a response from any respondent interested party to this proceeding. As a result, pursuant to section 751(c)(3)(B) of the Act and section 351.218(e)(1)(ii)(C)(2) of the Department's regulations, the Department conducted an expedited review of this order.

Scope of the Order

The product covered by this review is pure primary magnesium regardless of chemistry, form or size, unless expressly excluded from the scope of this order. Primary magnesium is a metal or alloy containing by weight primarily the element magnesium and produced by decomposing raw materials into magnesium metal. Pure primary magnesium is used primarily as a chemical in the aluminum alloying,

desulfurization, and chemical reduction industries. In addition, pure primary magnesium is used as an input in producing magnesium alloy. Pure primary magnesium encompasses products (including, but not limited to, butt-ends, stubs, crowns and crystals) with the following primary magnesium contents: (1) Products that contain at least 99.95 percent primary magnesium, by weight (generally referred to as "ultra-pure" magnesium); (2) Products that contain less than 99.95 percent but not less than 99.8 percent primary magnesium, by weight (generally referred to as "pure" magnesium); and (3) Products (generally referred to as "off-specification pure" magnesium) that contain 50 percent or greater, but less than 99.8 percent primary magnesium, by weight, and that do not conform to ASTM specifications for alloy magnesium. "Off-specification pure" magnesium is pure primary magnesium containing magnesium scrap, secondary magnesium, oxidized magnesium or impurities (whether or not intentionally added) that cause the primary magnesium content to fall below 99.8 percent by weight. It generally does not contain, individually or in combination, 1.5 percent or more, by weight, of the following alloying elements: aluminum, manganese, zinc, silicon, thorium, zirconium and rare earths.

Since the antidumping duty order was issued, we have clarified that the scope of the original order includes, but is not limited to, butt ends, stubs, crowns and crystals. See May 22, 1997, instructions to U.S. Customs and November 14, 1997, Final Scope Ruling of Antidumping Duty Order on Pure Magnesium from China.

Excluded from the scope of this order are alloy primary magnesium (that meets specifications for alloy magnesium), primary magnesium anodes, granular primary magnesium (including turnings, chips and powder), having a maximum physical dimension (*i.e.*, length or diameter) of one inch or less, secondary magnesium (which has pure primary magnesium content of less than 50 percent by weight), and remelted magnesium whose pure primary magnesium content is less than 50 percent by weight. Pure magnesium products covered by this order are currently classifiable under the Harmonized Tariff Schedule of the United States ("HTSUS") subheadings 8104.11.00, 8104.19.00, 8104.20.00, 8104.30.00, 8104.90.00, 3824.90.11, 3824.90.19 and 9817.00.90. Although the HTSUS subheadings are provided for convenience and customs purposes,

our written description of the scope is dispositive.

Analysis of Comments Received

All issues raised in this review are addressed in the "Issues and Decision Memorandum" ("Decision Memo") from Stephen J. Claeys, Deputy Assistant Secretary for Import Administration, to Joseph A. Spetrini, Acting Assistant Secretary for Import Administration, dated December 29, 2005, which is hereby adopted by this notice. The issues discussed in the Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margins likely to prevail if the order were revoked. Interested parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in room B-099 of the main Commerce building.

In addition, a complete version of the Decision Memo can be accessed directly on the Web at <http://ia.ita.doc.gov/frn/>. The paper copy and electronic version of the Decision Memo are identical in content.

Final Results of Review

We determine that revocation of the antidumping duty order on pure magnesium from China would be likely to lead to continuation or recurrence of dumping at the following weighted-average percentage margin:

Manufacturers/ Exporters/Producers	Weighted Average Margin (percent)
China-wide Rate	108.26

This notice also serves as the only reminder to parties subject to administrative protective order ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with section 351.305 of the Department's regulations. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing these results and notice in accordance with sections 751(c), 752, and 777(i)(1) of the Act.

Dated: December 29, 2005.

Stephen J. Claeys,
Acting Assistant Secretary for Import
Administration.

Notice of Continuation of Antidumping Duty Orders: Solid Urea from the Russian Federation and Ukraine

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce ("Department") and the International Trade Commission ("Commission") that revocation of these antidumping duty orders would be likely to lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"), the Department hereby orders the continuation of the antidumping duty orders on solid urea from the Russian Federation ("Russia") and Ukraine. The Department is publishing notice of the continuation of these antidumping duty orders.

EFFECTIVE DATE: January 5, 2006.

Hilary E. Sadler, Esq. or Maureen Flannery, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-4340 or 482-3020, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 1, 2004, the Department initiated and the Commission instituted sunset reviews of the antidumping duty orders on solid urea from Russia and Ukraine pursuant to section 751(c) of the Act.¹ As a result of its reviews, the Department found that revocation of the antidumping duty orders would be likely to lead to continuation or recurrence of dumping and notified the Commission of the magnitude of the margins likely to prevail were the orders to be revoked.²

On November 17, 2005, the Commission determined, pursuant to section 751(c) of the Act, that revocation of the antidumping duty orders on solid urea from Russia and Ukraine would be
