Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance

Proposed Projects: Information Collection Procedures for Requesting Public Health Assessments—(0923-0002)—EXTENSION—The Agency for Toxic Substances and Disease Registry (ATSDR) is announcing the request for extension of the OMB approval for the Information Collection Procedures for Requesting Public Health Assessments. ATSDR is authorized to accept and respond to petitions from the public that request public health assessments of sites where there is a threat of exposure to hazardous substances (42 U.S.C. 9604(i)(6)(B)). The Agency conducts public health assessments of releases or facilities for which individuals provide information that people have been exposed to a hazardous substance, and for which the source of such exposure is a release, as defined under CERCLA. The general administrative procedures for conducting public health assessments, including the information that must be submitted with each request, is described at 42 CFR 90.3, 90.4, and 90.5. Procedures for responding to petitions, decision criteria, and methodology for determining priorities may be found at 57 FR 37382-89. There is no cost to the respondents other than their time.

ATSDR anticipates approximately 36 requests will be received each year. This estimate is based on the number of requests received since the enabling legislation was enacted and the expressions of interest (via telephone, letter, etc.) from members of the public, attorneys, and industry representatives.

The total burden hours are estimated to be 18.

Respondents	Annual number of respondents	Number of responses/respondent	Avg. hourly burden/response	Total burden hours
