SUPPLEMENTARY INFORMATION:

I. Abstract

The Departments of Commerce and Homeland Security (“DHS”) are required to determine whether nonprofit institutions established for scientific or educational purposes are entitled to duty-free entry for scientific instruments

the institutions import under the Florence Agreement. Form ITA–338P enables: (1) DHS to determine whether the statutory eligibility requirements for the institution and the instrument are fulfilled, and (2) Commerce to make a comparison and finding as to the scientific equivalency of comparable instruments being manufactured in the United States. Without the collection of the information, DHS and Commerce would not have the necessary information to carry out the responsibilities of determining eligibility for duty-free entry assigned by law.

II. Method of Collection

A copy of Form ITA–338P is provided on and downloadable from a website at <http://enforcement.trade.gov/sips/sipsform/ita-338p.pdf> or the potential applicant may request a copy from the Department. The applicant completes the form and then forwards it via mail to DHS.

Upon acceptance by DHS as a valid application, the application is transmitted to Commerce for further processing.

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Army Corps of Engineers Debris Dock Replacement Project, Sausalito, California

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of incidental harassment authorization.

SUMMARY: NMFS has received a request from the U.S. Army Corps of Engineers (ACOE) for a second re-issuance of a previously issued incidental harassment authorization (IHA), with the only change being the effective dates. The IHA authorizes take of seven species of marine mammals, by Level A and Level B harassment, incidental to construction associated with the Debris Dock Replacement Project in Sausalito, California. The ACOE has requested re-issuance with new effective dates of January 1, 2024 through December 31, 2024. The scope of the activities and anticipated effects remain the same, authorized take numbers are not changed, and the required mitigation, monitoring, and reporting remains the same as included in the initial IHA. NMFS is, therefore, issuing an identical IHA to cover the incidental take analyzed and authorized in the initial IHA.
