The program is authorized only in the commonwealth of Puerto Rico and in the states of Alabama, Arkansas, Georgia, Hawaii, Illinois, Indiana, Iowa, Kansas, Louisiana, Maryland, Mississippi, Missouri, Nebraska, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, and Wisconsin. The program is authorized only in the states of Florida, Idaho, Michigan, Minnesota, Nebraska, Nevada, New York, North Carolina, North Dakota, Oregon, Pennsylvania, Washington, and Wisconsin. The EUP is effective from February 4, 2015, to December 31, 2015.

4. *62719-EUP-66*. (EPA-HQ-OPP-2014-0521). Issuance. Dow AgroSciences LLC, 9330 Zionsville Rd., Indianapolis, IN 46268-1054. This EUP allows the use of 19.63 pounds of active ingredient (1.139, 0.3416, 1.961×10^{-6} , 1.309, 14.07, 0.3443, and 2.428 pounds of Bt Cry1A.105 protein, Bt Cry2Ab2 protein, DvSnf7 dsRNA, Bt Cry1F protein, Bt Cry34Ab1 protein, Bt Cry35Ab1 protein, and Bt Cry3Bb1 protein, respectively) in 1,113,853 pounds of corn seed and involves 9,038 acres (*i.e.*, 6,361 PIP acres, 1,061 non-PIP acres, and 1,616 border acres) for inbred and hybrid development, nursery

The program is authorized only in the commonwealth of Puerto Rico and in the states of Arkansas, Hawaii, Illinois, Indiana, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Pennsylvania, South Dakota, Texas, and Wisconsin. The EUP is effective from December 18, 2014, to March 31, 2016. EPA received two comments, one that was anonymous and one from a private citizen, in response to the notice of receipt for this EUP. Both comments generally expressed opposition to pesticides, biotechnology, corporations, and/or EPA's approval of this EUP. EPA conducted risk and other assessments on the testing program proposed and the PIP active ingredients to be tested. Based upon these scientific assessments, EPA concluded that the active ingredients to be tested are not expected to cause unreasonable adverse effects to human health or the environment and that the applicant's limited testing was needed to accumulate information for a Federal, Insecticide, Fungicide, and Rodenticide Act (FIFRA) registration. Pursuant to its authority under FIFRA and without further consideration of these comments, EPA therefore proceeded forward with issuance of this EUP.

5. *88232-EUP-1*. (EPA-HQ-OPP-2014-0835). Issuance. Southern Gardens Citrus, LLC, 1820 County Rd. 833, Clewiston, FL 33440. The program is authorized only in the states of Florida and Texas. The EUP is effective from April 30, 2015, to April 18, 2018. EPA received two comments in support of the EUP on the notice of receipt, and the Agency has no further response to these comments.

SUPPLEMENTAL INFORMATION:

General Information

The U.S. Environmental Protection Agency (EPA) plans to create a Privacy Act system of records for the online registration tool, Eventbrite. Eventbrite is a free, online registration tool that can be used to collect basic information for meetings and other events. Agency users can customize the registration page to a certain degree and upload images, such as a company logo or seal. For official EPA business, Agency users are permitted to upload the EPA logo or seal, and follow the format, *U.S. EPA Meeting/Event Name*, for their title. The information collected by Eventbrite is used to determine the number of participants attending an event and may also be used to print nametags or tent cards. In order to register for an EPA meeting or event, it is necessary to collect basic personal information, such as name, title, organization, mailing address, email address, and phone number. This information will be used for internal Agency purposes only and will not be shared with a third party other than Eventbrite. The information collected will be used for the specific event only and will not be used for marketing or other purposes after the event has concluded. The individual attending the meeting will be permitted to opt out of using the online registration tool if they prefer not to share their information in this manner. On the Eventbrite page, the event organizer can enter contact information for a designated point of contact who can answer questions about the event or collect registration information over the phone. This tool may be used by EPA employees at no cost to the government. In order to use this tool for official EPA business, an account must be set up using an epa.gov email address, for example, doe.john@epa.gov.

Each Eventbrite registration Web site has a unique "URL" or Web site address associated with it. The URL can only be accessed by individuals who receive it from the event organizer. There will be no publicly accessible Web site that will list invitation-only events and so there will not be an opportunity for anyone other than the intended audience to register for such events. Registration information will be saved on the password-protected Eventbrite.com Web site and only the designated organizer for a given event will be authorized and
