Needs and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget (OMB) after this 60 day comment period in order to obtain the full three year clearance from them. The Commission is requesting an extension (no change in the reporting requirements) of this information collection. There is no change in the Commission's burden estimates.

Subject to certain exceptions, section 1.2105(c) of the Commission's rules prohibits auction applicants that are eligible to bid on any of the same geographic areas from cooperating or collaborating with respect to, discussing or disclosing to each other in any manner the substance of their bids or bidding strategies from the short-form application filing deadline to the post-auction down payment deadline, unless such applicants are members of a bidding consortium or other joint bidding agreement reported on their short-form applications.

The Commission has found that even when a communication of bids or bidding strategies is limited to one applicant's bids or bidding strategies, it may unfairly disadvantage the other bidders in the market by creating an asymmetry of information. Section 1.2105(c)(1) of the Commission's rules

attempts to address this concern by prohibiting auction applicants from communicating their bids or bidding strategies to each other. In enforcing Section 1.2105(c)(1), however, the Commission has encountered auction applicants engaging in communications prohibited by the rule. In some instances, there has been concern expressed about the obligation of a bidder to report information received from another bidder that potentially violates the rule, and the Commission has previously counseled applicants on the safest course of action for a recipient of a prohibited communication during the period in which Section 1.2105(c)(1) prohibitions are in effect would be to terminate the discussion and promptly report communication to the Commission. The Commission believes that the anti-collusion rule to include such a reporting requirement, as a deterrent to would-be disseminators of prohibited information regarding bids or bidding strategies, will make clear the responsibility to report such behavior and will thereby enhance the competitiveness and fairness of its spectrum auctions. Under the amendment the Commission adopted in the Seventh Report and Order, an applicant's failure to report a prohibited communication pursuant to Section 1.2105(c) may constitute a rule violation distinct from any act of collusion that violates Section 1.2105(c)(1).

The information requirement will enable the Commission to ensure that no bidder gains an unfair advantage over other bidders in its spectrum auctions and thus enhance the competitiveness and fairness of its auctions. The information collected will be reviewed, and if warranted, referred to the Commission's Enforcement Bureau for possible investigation and administrative action. The Commission may also refer allegations of anticompetitive auction conduct to the Department of Justice (DoJ) for investigation.
